# The Sea Coast Echo

"THE VOICE OF THE SOUTHWEST MISSISSIPPI GULF COAST"  
Bay St. Louis - Waveland - Pass Christian - Long Beach

1892-1972

Serving Hancock  
County For  
Eighty Years

VOL. 81, NO. 39

BAY ST. LOUIS, MISSISSIPPI 39220 THURSDAY, SEPTEMBER 28, 1972

SINGLE COPY 10¢

## Beach Road Progress Unsatisfactory--Seal

A progress report on Hancock County state aid road projects indicates that overall progress on the beach road project has not been satisfactory.

Although work on the beach road, which is 100 percent federally funded, was about 48 percent completed in 50 percent of elapsed time by September 5, dirt fill hauling has lagged behind schedule, according to Larry Seal, county engineer for state aid road projects.

Seal told the Sea Coast Echo Tuesday that delays in filling and packing in the Ulman-Turroll Avenues area, and at Washington St. will cause a corresponding delay in road construction in the entire area of the project.

The beach road has been most severely damaged in those areas requiring not only rebuilding the road bed but construction of a three to one dirt or concrete slope to the seawall, as a retaining agent.

Base and prime work have been completed on the Caesar-Necaise Road, Seal said, and paving will begin as soon as the material arrives. The eight and one half mile job is expected to be completed about November 1.

Survey crews began work Monday on the mile and one half stretch of Shoreline Park road running between Highway 603 and Highway 90 in preparation for a drainage improvement and asphalt paving project. Authorization has recently been received to proceed on the road.

## Kidd Attending CD Conference

County Civil Defense Director Lucien Kidd left Tuesday for a two-day conference in Jackson with state, regional and federal Civil Defense officials, for preliminary briefings on

federal assistance programs requested by local CD coordinators.

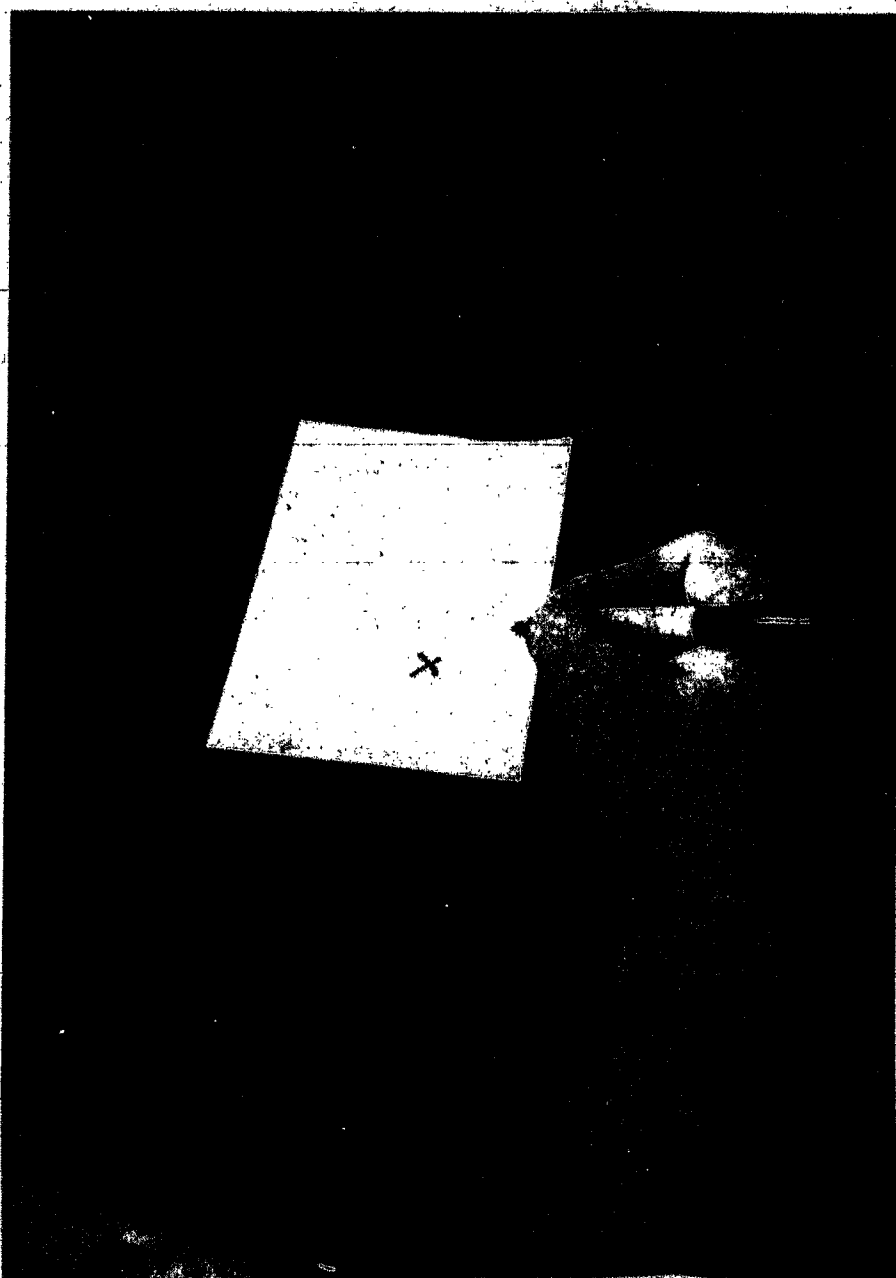

A county-wide analysis of Civil Defense structure was requested about two months ago by the Hancock board of supervisors at Kidd's instigation, leading to a study by federal CD teams of the county's present operation, facilities and needs for preparedness in times of natural disaster.

Favorable recommendations from the study can promulgate the designation of a priority program under federal funding to improve and widen the scope of Civil Defense in each locality, Kidd said.

Another plan, begun in 1968 and providing a shelter setup in the community for nuclear attack, has been accepted by the state for implementation in Hancock County. Kidd is now working to expand the shelter plan to include travel routes for citizens to reach designated nuclear attack shelters.

Kidd added that through the cooperation of Edward Hall, Sea Coast Echo publisher and editor, the nuclear attack plan will be published in this paper if and when he receives an alert from the federal government.

The advantage gained by waiting to publish the attack plan, Kidd stated, is that CD authorities are enabled to continuously update the plan allowing for changes in population, community expansion, buildup and the like.

SIX OF THESE defeated the Neighborhood Development Program proposed for Bay St. Louis in a special referendum held last week.

## Shortage Of Nurses Felt At Hancock General

Hancock General Hospital nursing staff is at an uncomfortably low ebb, with only four full time Registered Nurses and one part time RN now on the roster, according to Mrs. Denise McDowell, supervisor of nursing services.

A complement of 10 R.N.'s plus the supervisor is the ideal figure for the 61-bed hospital, she said, which with Licensed Practical Nurses and Nurses Aides provides top quality patient care. Until recently there were ten R.N.'s working full time at the hospital, but due to various exigencies, six have left within the past 60 days.

Explaining the sudden cutback, Mrs. McDowell said two moved out of town, one returned to school to work

toward a Master's Degree, one retired, another is available only in the summer months as she is employed by the city school system in the winter months, and the sixth left to take a position with the Public Health department.

Other R.N.'s living in the area are unavailable as most are working for school systems, the health department or in private institutions. High standards of training, experience and performance on duty required by the hospital further narrow the

field of replacements. At present, the shortage has imposed hardships on both the remaining 'four and a half', as she put it, as well as on the LPN's and Nurses Aides who with only one R.N. to a shift have a double work load to carry.

Attempts are being made to increase the roster of nurses as soon as possible before the situation becomes critical, Mrs. McDowell concluded, but prospects at this time are discouraging for a solution in the near future.

## Gex To Head Re-Election Committee

Jesse Brent, chairman of the Mississippi Committee for the Re-Election of the President has announced the appointment of Lucien M. Gex Jr. as Chairman of the Hancock County Committee for the Re-Election of the President.

Gex, a resident of Waveland is a graduate of the University of Alabama and the Tulane School of Law. He is currently in private law practice in Waveland.

A veteran of the U.S. Air Force, Gex served with the Judge Advocates Corps in the United States and Iceland. After leaving the Air Force, he returned to a New Orleans law firm where he practiced until 1965.

From 1965 to 1971, Gex served as legal counsel to the General Electric Company at the Mississippi Test Facility. Gex is currently serving as City Attorney in Waveland, a position he has held since 1965.

He is a member of the Waveland Civic Association, various legal organizations, and the Hancock County Red Cross. He has previously served as President of the St.

Clare's Parish Council and School Board.

Gex is married to the former Nancy Gould. They have four children: Laurie, Leslie, Nancy and Beau.

In making the announcement, Brent stated, "We are very proud and happy to have a man of Lucien Gex's character and leadership working with us on this committee. He will be in charge of organization in the Hancock County area. We feel he will do an excellent job in working for the president."

## BENEFIT SATURDAY

The Bay St. Louis Junior Police Association will conduct a benefit Saturday morning at Winn-Dixie, Food Discount Center and A & P Food Stores in order to raise money to purchase a wheelchair for Huey Kennar, a polio victim. The benefit will begin at 10 a.m. and all donations will be greatly appreciated.

## Voters Defeat Bay NDP Plan

Bay St. Louis voters defeated the proposed Neighborhood Development Program referendum Tuesday in one of the largest voter turnouts for a special election.

The final vote, certified by the Bay St. Louis Election Commission Wednesday morning, was: Against-422; For-416.

Although NDP failed to pass by only six votes, Bay St. Louis city officials were pessimistic Wednesday as to the possibility of another referendum.

"I am very sorry that the referendum did not carry," said Mayor Warren Carver, "and I'm not sure about bringing it to the people again. It doesn't mean that we're completely out of federal funding programs; just that it has set us back at least one to two years."

"Other cities are interested in the NDP plan so now we'll have to sit on the sidelines and watch these communities progress," the Mayor concluded.

City Commissioner William Frisbie is not in favor of calling another referendum until after next year's city elections. "I think July would

be a good time," he pointed out, "after the voters decide on the next city administration. Therefore, politics would be kept out of the program and the people could judge the programs on its merits alone."

Commenting on his feelings about the election, Frisbie said, "I am disappointed on the outcome but this is what elections are all about and why they are held. I'm not really surprised at the vote and I think it would fall again if we call another referendum in the near future. However, this decision will be left up to the commission council."

Commissioner Andre Arceaux is attending a Civil Defense conference in Jackson and was not available.

## COURT DOCKET

Although the October term of circuit court in Hancock County does not open until October 9, Judge Floyd Logan has announced that the docket will be called October 6 beginning at 9 a.m. All attorneys having cases on the docket are requested to be there at that time.

Over 800 people went to the polls Tuesday as compared with only 500 who voted in the Mississippi Power Company franchise election.

## Snakes Invade Bay Area

Bay St. Louis residents have reported that a large number of water moccasins have been spotted in residential neighborhoods, particularly in Spanish Acres and on Chantilly Terrace and Highland Drive.

According to Bill Goodwin, local assistant county agent, the moccasins are seeking places of moisture because of the lack of rainfall during the past three months. "Actually, the best thing to do is to cut your high grass, clean all ditches and move all debris out of your yard," said Goodwin. Goodwin also suggested that overgrown empty lots be cleared thus reducing the possibility of snakes in that area.

Any Bay St. Louis resident having a complaint about high grass in an empty lot is urged to call Mrs. Necaise at the Mayor's office, 467-9092.

## Appeal Made During United Fund Dinner

"Give of yourselves... we all don't have money but we all do have some time to help someone else in need," Mrs. Arnette Giles of Pearlinton told listeners at a United Fund kickoff banquet Monday night in Waveland.

Mrs. Giles, who was honored by President Richard Nixon as the nation's top volunteer worker, was principal speaker at the banquet and appealed to the gathering to support the dozen community agencies financed by the United Fund.

A lively and polished slide presentation illustrating the many areas of community service performed by member agencies was narrated by Neville Jacob, resident science writer at the Miss. Test Facility. Color slides by Robert Hubbard showed county-wide volunteer staffers at work through United Fund support.

Mrs. Giles described the school for retarded children, where she has been a teacher for nine years and which has been totally funded for that long by the United Fund. Now located in Lakeshore School, under the county school system, the Children's Center for Special Education has been moved five times since first organized, she said, in a desperate effort to find a permanent location.

"Moving can be an emotional thing," she said, "and it is especially hard on these children who so need some stability."

Mrs. Giles said the hope was that the building in Clermont Harbor would be permanent, but that day she had been informed by Kenneth McCarty, county school superintendent, that half of the building would be taken over for a day care center, leaving them only the two classrooms now in use.

Mrs. Giles stated that she and the other teachers had expected to use that side of the building as a vocational and domestic training room for the school's 20 students. A

number of articles such as stoves, a refrigerator, irons and boards and washing machine had been donated to the school by philanthropic individuals for such use, "but now we don't have any place to put them and won't be able to teach the children these things to help them find a place at home and in the community," she said.

Speaking of the school's teaching staff which includes Mrs. Frances Crowley, special education teacher and Mrs. Iris Hughes, teacher's aid, Mrs. Giles said warmly, "We work closely together for and with the children. We are a team as we try to teach the children to live with people

and in their homes, more productively and happily." There were four teachers, but two days before school opened this year Mrs. Ruth Summers was told that she was discharged "for reasons which we don't know," Mrs. Giles said.

"Look around you," she said in conclusion. "When you see things happening that aren't right, talk to God about it then do something about it."

Campaign Chairman Marileen Maher introduced Sylvester Abbott, United Fund president, who presented a plaque of appreciation to J.A. Weinfurter, recently resigned treasurer of Hancock County United Fund.

TOP VOLUNTEER Mrs. Arnette Giles, of Pearlinton, received a standing ovation as principal speaker for the Hancock County United Fund kickoff banquet Monday night. (Echo staff photo by Adoree Shortle)

OFFICERS OF the newly-formed Bay St. Louis-Waveland Altrusa Club were installed in ceremonies Tuesday night at Diamondhead Country Club. Members of the Gulfport and Biloxi Altrusa Clubs attended the dinner and ceremonies. Mrs. Charlotte Rhett, first vice-governor of Altrusa's District Four installs, from left, Mrs. Virginia Gex, president; Miss Becky Adams, vice-president; Miss Jeannette Monti, corresponding secretary; Mrs. Hazel McCreery, treasurer; and Mrs. Mildred Switzer, recording secretary. The club consists of 22 members, all of whom were initiated into the organization at the dinner.

ALTHOUGH THERE is no more Logtown today, back in 1923 it was a thriving community. That's when the

students of Logtown School got together for a photo. In the background is Logtown School. Many people in the

picture are living today in Hancock County. Recognize anyone? Photo courtesy of Mr. Raymond Talbot of Bay

St. Louis. (Readers are urged to submit photos to the Echo for use in Reflections. Pictures will be returned unharmed at the Echo office in Bay St. Louis. Use of all photos is left to the discretion of the editor.)

MRS. KAY GEX, left and Mrs. Margaret Shadoin model some of the fashions they wore last week at the fashion show at the Bay-Waveland Yacht Club.

(Echo staff photo by Marileen Maher)

## Fashion Show Held At B-W Yacht Club

"Silhouettes in Fashions" was the theme for a style show of fall and holiday fashions given by the Princess Dress Shoppe at the Ladies Luncheon and Bridge Party held at Bay-Waveland Yacht Club September 20.

Over 100 members and guests were present. Featured looks included the layered look-the classic tailoring in pant suits and long ensembles-the full flowing Palazzo pant

- the elegant and feminine formals in velvets, brocades, satins and plaids.

Classifications represented were casual sports wear - street wear - at home wear - and formal wear. Felt hats and many other "new looks" in accessories added accent to each fashion. The shoes worn by the models were from Hak's Shoe Store.

After the first half of the show there was a drawing for a gift certificate from the Princess Shoppe. At the conclusion was a second drawing for a gift certificate from Hak's Shoe Store.

Models participating were: Margaret Shadoin, Kay Gex, Jo DeBever, Linda Kidd, Rosemary McFarland, Sue Hensley, Grace Santa Cruz, Lil Kalmbach, Nancy Adams, Maron Cassana, Alecia Rollins, Myrt Haas and Miss Becky Adams.

Chairman of the luncheon entertainment committee was Mrs. Lyla Greenfield.

**BRIDGE WINNERS**

Winners of games played Monday night by Bay-Waveland Bridge Club members were Mrs. Gerald Kennedy and Mrs. Richard Mestayer, first; Mrs. Mildred Means and Miss Amelia Seafide, second and Mrs. Dale Pierce and Mrs. Marilyn Siegens, third.

*Alfred Shottle*

There's a nasty rumor going around that work has stopped (or never got started) on the Beach Road. This is not true.

It just SEEMS as though work has stopped (or never got started) on the Beach Road.

Actually, we have it on good authority that several contacts have been made to use the road in its present condition.

1) NASA has considered the possibility of using it to train astronauts to walk on the moon's surface. Scientists have noted the similarity between the road's potholes and craters on the moon. (Editor's Note: lend-lease arrangements are underway between the U.S. and Russia for use by the Cosmonauts. A former Politburo member said, "there is nothing like it here in Siberia.")

2) Civil defense experts are interested in the road for other training purposes, for instance, using it to study the possibility of vehicular transportation following a nuclear attack. A civil defense expert revealed that, following the last blast in New Mexico, government vehicles kept falling into large holes, costing the Defense Department \$18,000 in towing costs alone. "We could cut that cost in half by using Hancock County's Beach Road before the next blast," he said.

3) General John B. Killen was in the area last week with his tank, Trigger, testing the road for tank driver training. "Trigger ain't had such a good ride since he left Anzio," Killen exclaimed.

4) A national car magazine has selected the road for testing the durability of new car models. (We can hear the commercials now - "After the grueling two-mile drive on the Beach Road in Hancock County, Mississippi, the new Sciontubo was the only car left with shocks, tires, an axle and a steering wheel. All others had to drop out early in the test.")

A communication received from official War Department sources in Washington has dispelled another rumor that the road has been used for bombing and low altitude strafing exercises by the U.S. Air Force and Navy Air Corps fighter pilots. According to a spokesman, the military refuses to assume responsibility for the condition of the road NOW. "I don't care how much it may look that way," a high ranking officer said, "we had nothing to do with it. Speaking strictly off the record, if we had, we would have just cut it loose and let it drift out to sea."

However, unofficial sources have not denied that tentative efforts were made by NASA to secure the portion of the road at Ulman Ave. as a guided missile launch site, but clearance at the county level broke down before an exchange of documents could be effected. The matter was then referred to another department under whose jurisdiction and funding the case falls.

The State Road Patch and Bluff Division has advised that as soon as current rearranging efforts on the road are completed, the citizens of Hancock County will be the first to know.

Without such notification, we'll never be able to tell the difference.

**SCHOOL MEETING**

St. Clare's Home-School Association met last Wednesday night with Richard Zitterkopf, president, conducting the business session. Rt. Rev. Msgr. John Scanlon, pastor of St. Clare Church, offered the opening prayer.

Plans for the annual candy sale and children's Halloween party scheduled for the latter part of October and the annual Christmas display and fashion show to be staged in November were discussed.

Sister Mary Hyacinth, O.P., principal announced the Educational T.V. system will be installed shortly with facilities in all classrooms.

## Population Control Important To Survival

by Jean Edwards  
Neighborhood Ecology Center

Dr. Paul R. Ehrlich in "The Population Bomb" writes, "It has been estimated that the human population of 600 B.C. was about five million people, taking perhaps one million years to get there from two and a half million."

The population did not reach 500 million until almost 8,000 years later about 1650 A.D. This means it doubled roughly once every thousand years or so. It reached a billion people around 1850, doubling time in some 200 years.

It took only 80 years or so for the next doubling, as the population reached two billion around 1930.

We have not completed the next doubling to four billion yet, but we now have well over three billion people. The doubling time at present seems to be about 37 years. Quite a reduction in doubling times, 1,000,000 years, 1,000 years, 200 years, 80 years, 37 years."

I have a friend named Seetha from Bangalore, India. She told me once that the thing about this country that was most unlike her own was being able to walk outside her suburban home in Jackson, Mississippi and, at times, not seeing a single person around.

She says that at no time in her country can a person be alone outside of his own home. She tells of walking through the crowded streets of India, bumping shoulders with those you meet and how there is never any silence.

**CANDY STRIPERS**

Important meeting of all Candy-Stripers to be held in the dining room of Hancock General Hospital Saturday at 10 a.m.

responsible for overpopulation and pollution. "For example, the average American consumes fifty times as much steel, 170 times as much synthetic rubber and newsprint and 300 times as much plastic as the average citizen of India."

Population control must become a way of life for all Americans, for the poor, because it is the only way out of poverty, for the middle and upper class American because it is the only way to save ourselves from oblivion.

If anyone should need advice on family planning they can obtain it from the Gulfport Clinic of the Family Planning Association located in the Health Department, but Hancock County needs a planned parenthood program of its own especially now that our local physicians no longer offer their services to expectant mothers.

There are lots of good reasons for family planning and a clinic for that purpose will probably be very welcomed.

## Coast Firemen Work Together

One of the most commendable accomplishments by public service departments of coastal communities has been the Mutual Aid Association, established by area fire departments six years ago.

A prime example of what cooperation and mutual respect can produce, the association unites fire departments from five cities, all except Gulfport with less than 10,000 population, providing complete fire protection to a two county area.

Fire departments from NASA-MTF, Waveland, Bay St. Louis, Pass Christian, Long Beach, Gulfport, Piquette, St. Tammany, and two paper companies form the association, which calls for each member unit to be on standby for neighboring units at all times. If Pass Christian goes to Bay St. Louis to assist that department, Long Beach stands by for the Pass, Gulfport stands by for Long Beach and so on down the line. If Waveland goes to the Bay, NASA stands by for Waveland and Piquette is on call for both.

For example as Bay St. Louis' only truck was in Henderson Point last Monday, Waveland sent one of its two units with personnel to the Bay Station to cover the city and the Waveland chief went to Henderson Point to assist there.

Major conflagrations such as the Ingram plant disaster in May, the Shell Oil Co. fire Nov. '71 (before that) and Annie's Restaurant fire will bring units from all the departments within minutes after the first call. It's an inspiring experience to watch the close coordination of the respective chiefs and their personnel during a fire, working with precision and total unity of purpose, the newer team working beside and learning from the more experienced firemen.

In between fires, the fire chiefs are in constant communication sharing information, training drills and benefiting from each other's experiences. A close camaraderie exists amongst association members sparked by good natured rivalry.

Any association or organization is only as good as its members and the top quality of the Mutual Aid Assn. is a tribute to the men in it.

Coastal residents should be justifiably proud of and grateful to their fire departments.

City and county elected officials should take a break from petty squabbling long enough to observe the great value that can be derived from cooperation and mutual respect.

## GUEST EDITORIAL

### Questions Need Answering

The cost and complexity of state government have been increasing at an accelerating rate throughout the nation and Mississippi is no exception. Demand for services, coupled with administrative and legislative trends to promote and expand programs, has greatly complicated governmental operations.

Our state government is the largest, most complex, most diversified operation in Mississippi with the state general fund budget now close to \$450 million over half a billion dollars.

Revenues to finance state government are derived from such sources as direct taxation, fee assessments for services, bond proceeds and federal assistance.

Some 23 new state agencies have been created within the past 15 years. In the decade from 1961 to 1971, general fund expenditures increased by 175 per cent.

A special analysis by the Economic Council-State Chamber of Commerce has raised pertinent questions for which answers are needed:

Is state government providing services commensurate with tax dollars invested?

Is the cost too high in relation to services received?

Can more, and better, services be rendered at less cost to the taxpayers?

Many states are asking these same questions. Some have found the answers, Council points out.

Montana is in the process of modernizing its state government, reducing the number of state departments from 161 to 19. Immediate savings of \$200,000 per year are expected through streamlining of operations. A tax saving of \$2 million per year is anticipated.

Long-range benefits will be even greater.

Georgia has realized even greater benefits through modernization.

Modernization of that state's government is expected to produce more than \$20 million in net onetime savings and over \$60 million in net annual financial benefits.

Modernization of Mississippi's state government is needed in the interest of economy and efficiency, as the Council points out. Mississippi stands on the threshold of a new decade of opportunity. The quality of state government will be a primary force in determining the degree to which the people of Mississippi share in the benefits of this new era.

## Colling's Corner

By E.S. Colling

City-County Library Writer

Many years ago we knew a restaurant called La Paix in Brussels, Belgium, right near the St. Gudule Cathedral. With friends we used to frequent this place often, for the food, service and surroundings were way above the best we had ever found in eating places throughout the world. But La Paix passed on, and the last time we were in Brussels there was no sign of it left.

We sincerely hope that isn't going to be the case with Annie's restaurant at Henderson Point, next to La Paix the best eating place in which we have ever had a meal. Annie's was completely destroyed by fire on Monday morning, Sept. 18.

Annie has had a most interesting and varied career as a restaurateur. The business was started by her parents in 1928, and made an immediate appeal to the summer residents along the coast from Bay St. Louis to Biloxi. Tourists who had once sampled the food at Annie's used to plan their trips to arrive at Henderson Point in time for lunch or dinner, and residents along the coast used to come to Annie's on every "special" occasion. For years Annie and her sister were the mainstays of her mother and father in conducting the enterprise.

But over the years misfortune seemed to take delight in hitting the booming business. There was a bad fire

in the 30's and four separate hurricanes caused damage during the following decades. But each time Annie and her folks refused to be lulled; they repaired and rebuilt and defied Old Boreas to make them stay down. Even when Camille struck them three years ago, they bounced right back with a beautiful new restaurant and a lounge whose bar was a work of art. This time fickle fortune seemed to have relented, for the place was well patronized, even crowded at many times as more and more people returned after a first visit.

Then came the fire, the crusher, but we wager that even that blow will be weathered by Annie and her artist husband, Thayer Lutz. Nothing, of course, can replace the many old relics and objects d'art destroyed by the fire, the most valuable to Annie being the portrait of her parents by her husband. But, as Annie says, she's been through it before and she's not going to knuckle under now, even though there was no insurance on the building and its contents. We haven't known Annie for very long, but there is something about her that makes us sure that within a reasonably short time we'll be eating broiled trout and fried shrimp in Annie's New Restaurant and drinking a toast to her in old Benedictine trappé in a lovely new lounge.

## Trumpets In The Morning

### THE NOW GENERATION

The year I was born the Korean War ended.

When I was one, the Supreme Court banned racial segregation in the schools.

When I was two, Dr. Jones Salk's polio vaccine was pronounced a success.

When I was three, Americans exploded an H-Bomb, the equivalent of ten million tons of TNT.

When I was four, the Russians launched Sputnik I.

When I was five, Cardinal Roncalli became Pope John XXIII.

When I was six, Fidel Castro assumed power in Cuba.

When I was seven, John F. Kennedy was elected President.

When I was eight, the Peace Corps was established.

When I was nine, John Kennedy died.

When I was ten, John F. Kennedy was shot down in Dallas.

When I was eleven, the U.S. Senate passed the Gulf of Tonkin Resolution and North Vietnam was bombed.

When I was twelve, there was a march in a place called Selma.

When I was thirteen, Red Guards appeared in China.

When I was fourteen, Newark exploded and Detroit went up in flames.

When I was fifteen, Martin Luther King, Jr., was slain in Memphis and Robert F. Kennedy was shot in Los Angeles.

When I was sixteen, Neil Armstrong took one small step and made a giant leap for mankind.

I am the NOW GENERATION.

These are the events that have shaped my life.

Let us all follow Jesus on the upward way!

STRAIGHT AHEAD!!!

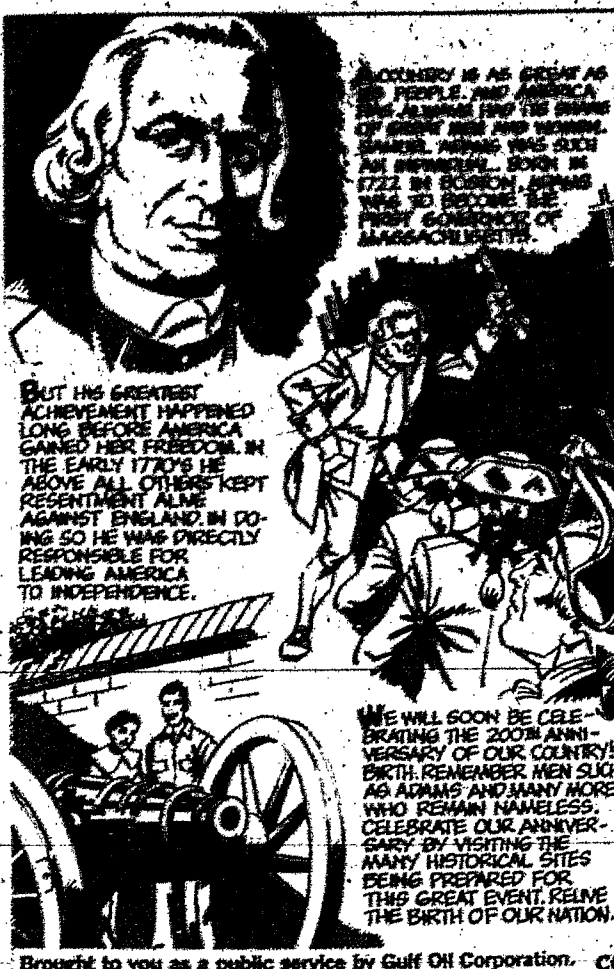

About 27 percent of the trees processed into veneer in 1969 came from Louisiana—more than any other State.

Louisiana's 11 plywood mills annually manufacture about 360 million square feet of plywood, making the State the leading U. S. producer of southern pine plywood.

The U.S. Department of Labor's Bureau of Labor Statistics reports that youth employment in the summer of 1972 rose to an all-time high of 12.7 million. The youth civilian labor force in the summer of 1972 was 15.0 million. The summer youth labor force and youth employment were both 1.2 million higher than in the summer of 1971.

### LETTER TO EDITOR

Dear Sir,  
Please let me use a small space in your column "Letters to the Editor." As you know people in the rural area read your paper as well as the city folks. I'm a person that always stands for progress. Would you please put a "Big" "Thank You" for the "Stop" "Sign" at the junction of the Dummy line road and Highway 43.

Us natives know the junction is there but people from other areas do not know about it, such as "A School bus loaded with students from a neighboring county and a couple of dozen are so of automobiles that just crossed right on over Highway 43 down a big fill and into a deep ditch. Luckily no one was ever killed but there has been several serious injuries.

So let me take this means to give a big "Thanks" to the "guy or guys" who are responsible for it being put there, who knows you may have saved a life. Thanks again.

Respectfully  
Mrs. Forest M. Lee  
(Vivian)

Gentlemen:  
I want to lodge a complaint about the manner in which the ad valorem taxes are handled in Hancock County.

My wife owns, and has owned for twenty-five or more years, a small piece of property in Waveland. At present, I believe that there are four different tax bills that apply to this property.

I have written to these four tax collecting offices from time to time requesting that the tax bills be sent to me for payment. As a rule, my requests have been ignored, and not infrequently, Mrs. Henican's property is advertised for sale.

I have become impressed with the idea that the complete lack of cooperation on the part of the tax collectors is a result of a determined effort to see that the ad valorem taxes on the real estate in Hancock County are not paid, particularly by as many non-residents as possible; and I am even wondering whether or not the desire for more advertising dollars is included in the package.

We receive bills from many tax collectors. Apparently these tax collectors are more interested in having timely payment of their bills than anything else. We also get bills

from business houses, many of which have return envelopes for remittances included therein.

In reviewing the list of proposed tax sales, I notice very many non-resident owners who I am certain are anxious to pay their taxes, but are up against the same difficulties that we face. I am not interested in having someone tell me that all I have to do is to go to this office or to that office where I can get my tax bill and pay it. This is beside the point, and as far as I am concerned it is a feeble excuse.

We love the Mississippi Gulf Coast. We trade with its merchants, and annually enjoy its facilities. A correction of what is apparently going on in the tax collecting offices will add to our enjoyment.

Sincerely yours,  
C. Ellis Henican

Perry Gibson, president of the Hancock County Chamber of Commerce, Mayor Warren Carver of Bay St. Louis, and representatives of several organizations met with Sidney Kidd, Traffic and Safety Engineer from the office of Mr. W.H. "Shag" Pyron, State Highway Commissioner, at the Chamber office Wednesday, September 20 to discuss improvement of traffic signals on Highway 90.

We requested installation of large red lights on traffic signals at the intersections of Highway 603, Main Street, Dunbar Avenue, North Beach Blvd. on Highway 90. In addition to a large light at North Beach, the necessity of amber flashing lights on the Bay St. Louis Bridge was pointed out. Mr. Kidd assured the group that this request would be presented to Mr. Pyron and we will know what improvements will be done within three weeks from our meeting, which will be before October 11.

In a letter to Mr. Perry Gibson, dated September 25, Mr. Pyron stated, "Regarding the problem at the end of the Bay St. Louis Bridge, I am requesting Mr. Kidd to do what is necessary to help relieve this situation." We must now wait to see just what the Highway Commission plans to do within the next two weeks.

The United Fund Drive will soon begin. When you realize just how many programs and projects are available for community betterment only because this organization exists, you can't possibly do anything but give generously.

The Red Carpet Committee, with its members, Mrs. Clara Carrigan, Pass Christian, and Mrs. Ethel Green, Bay St. Louis.

A native and lifelong resident of Bay St. Louis, Mr. Schindler was formerly employed by Breath's Boats and Motors Company and Hancock Marina. He was a member of Our Lady of the Gulf Catholic Church. He was the son of the late August and Alma Bordages Schindler.

Survivors include his wife, Mrs. Lear Rold Schindler, Bay St. Louis; a son, Emile Schindler, Bay St. Louis, and a daughter, Mrs. Emile Nelson, Pass Christian; three grandchildren; four brothers, Raymond, Clarence and Charles Schindler, all of Bay St. Louis, and two brothers, New Orleans; three sisters, Mrs. Marguerite Carver, New Orleans; Mrs. Clara Carrigan, Pass Christian; and Mrs. Ethel Green, Bay St. Louis.

Funeral services for Emile A. Schindler Sr., 57, who died at 5:25 p.m., Tuesday, September 19, at Hancock General Hospital, were held at 9:45 a.m. Thursday with a prayer service at Riemann's Funeral Home followed by a Requiem Mass at 10 o'clock with Rev. Michael Tracey, associate pastor, officiating.

Interment was in St. Mary's Cemetery with Anthony Colacano, Ronald Peterson, James Strong, Henry Favre, Allen Decker and Bobby Compretta serving as pallbearers.

## Tips From Mr. Ingenuity

### Five Ways To Handle Summer's Leftovers

Short of being in a climate where trees keep their foliage year-round, falling leaves are as certain as Thanksgiving. How to handle their deposits a lot on you and your property.

By far, the most popular method, short of hand raking, is to put an inexpensive blade attachment on your rotary power mower. The mower then acts as a leaf shredder with centrifugal force of the mower blades whisking the leaves into your catcher, or if you prefer, dropping the shreds back to the ground as a winter frost cover.

There are also power sweepers which use a rotating brush (much like street sweepers) to sweep whole leaves back into a catcher as the mower proceeds across the lawn. These are neat and efficient and particularly adaptable to medium sized lawns with few tight spots. Since the leaves are left whole, it is well to choose a model with a large catcher to cut down on the number of times the catcher must be emptied.

Next on the list is the lawn vacuum. That's right, vacuum. This is usually a push-type unit with a wide nozzle on the front. The vacuum works much like your house vacuum. The nozzle sucks in every leaf it passes over with the blower forcing the leaves into very large catcher bags. The force of the blower tends to compress the leaves in the bag so it has to be emptied less often. An advantage of the vacuum is its ability to suck leaves from under shrubs and tight corners. Certain models even have hose attachments to clean garages and workshops.

Just the opposite from the vacuum is the blower. These units are capable of creating winds of almost hurricane force to blow leaves across the lawn at each pass. Equipped with throttle controls to vary the wind velocity, the blower can pile leaves as neatly as you can with a hand rake.

If you're a gardener, you might team up one of the units above with a shredder that grinds and pulverizes leaves, sticks, twigs, trimmings, vines. Mix in some manure and/or rock phosphate and you're making your own plant fertilizer. These units roll between garden rows or next to plant borders and flower beds to put your compost where it's needed.

Use of any of the units listed here tends to create a good deal of dust since leaves are best handled when they are dry. The dust tends to rob the unit's engine of power and can even clog the blower housing air intake and carburetor to the point of engine failure. It's best to choose a leaf unit with a highly efficient air cleaner such as Tecumseh's Klean-Aire(TM) filter. The Klean-Aire(TM) filter features a snorkel intake which rises above dust and leaf bits to draw in clean air. Inside the blower housing, left over dirt is whisked away as the pre-filtered air flows thru the double thick oil saturated final filter to form a perfect gas-air mixture in the Tecumseh engine.

# Now a great new service is offered you by Coast Federal!

## The Monthly Interest Check Plan

With a deposit of \$5000 or more, you may now have an interest check mailed to you each month. The new service provides you with certain income at the first of each month. Of course, your principal deposit remains constant and can be withdrawn by you at any time before maturity subject to a penalty of six months interest. The certificate of deposit is automatically renewable.

If you deposit, for example, \$10,000 in a two-year certificate of deposit (6% interest per annum), you will receive a \$50 check each month from Coast Federal as long as you leave your money on deposit.

If you deposit \$50,000 (in one or more accounts) you will receive \$250.00 monthly from Coast Federal.

You are cordially invited to come by or telephone any of Coast Federal's conveniently located offices. Coast Federal's staff is knowledgeable, helpful, and friendly. You will discover that opening an account at Coast Federal is an easy and pleasant experience.

### Examples Two Year Certificates Of Deposit

You deposit:	Your monthly interest check will be:	Annual interest rate:

## Hancock County Sheriff's Report

Hancock sheriff's deputies arrested five Pearlinton men late Tuesday afternoon as they were dismantling a stolen car at a Pearlinton residence.

Acting on a report, Sheriff's Deputies Willie Lee, James Ladner and Special Agent Ronald Peterson found the five men in the process of removing the engine and transmission from a 1968 Buick Electra about 5:45 p.m. Placed under arrest and booked at the county jail on charges of possession of stolen goods were Romalls Simmons, 23; Horace Johnson, 22; Ernest Martin, 25; Walter Mitchell, 20, and Lionel Washington, 23.

The five were placed under \$5,000 bond each and brought for a preliminary hearing Wednesday night before Justice of the Peace Lee Klein.

A 15-year-old girl and her 17-year-old brother, runaways from their Florida home, were apprehended Sunday afternoon by Constable Sam Perniciaro as they were hitchhiking on Highway 90 in Bay St. Louis. Perniciaro found the girl about 1:40 p.m. and later in the afternoon, acting on information she supplied, Sheriff's Deputy Fairley Necaise picked up the young girl's brother at another location on the highway. The two youths were turned over to county juvenile authorities and are being detained in the Youth Detention Center pending arrival of their parents.

Larry Garcia, 21, was arrested September 17 by beat four Constable Sam Perniciaro at Garcia's Nicholson Ave. residence on a complaint of assault and battery with intent to kill.

At the county jail Garcia broke away from Sheriff's Deputy Fairley Necaise and fled on foot. He was caught a few blocks away by Necaise and Perniciaro and placed in jail under a \$500 bond, with an additional charge of attempted escape.

At a Friday hearing before Justice of the Peace Jimmy Ray Hoda, Garcia's original charge was changed to simple assault. He was found guilty of the two charges by Hoda and was sentenced to 30 days in the county jail.

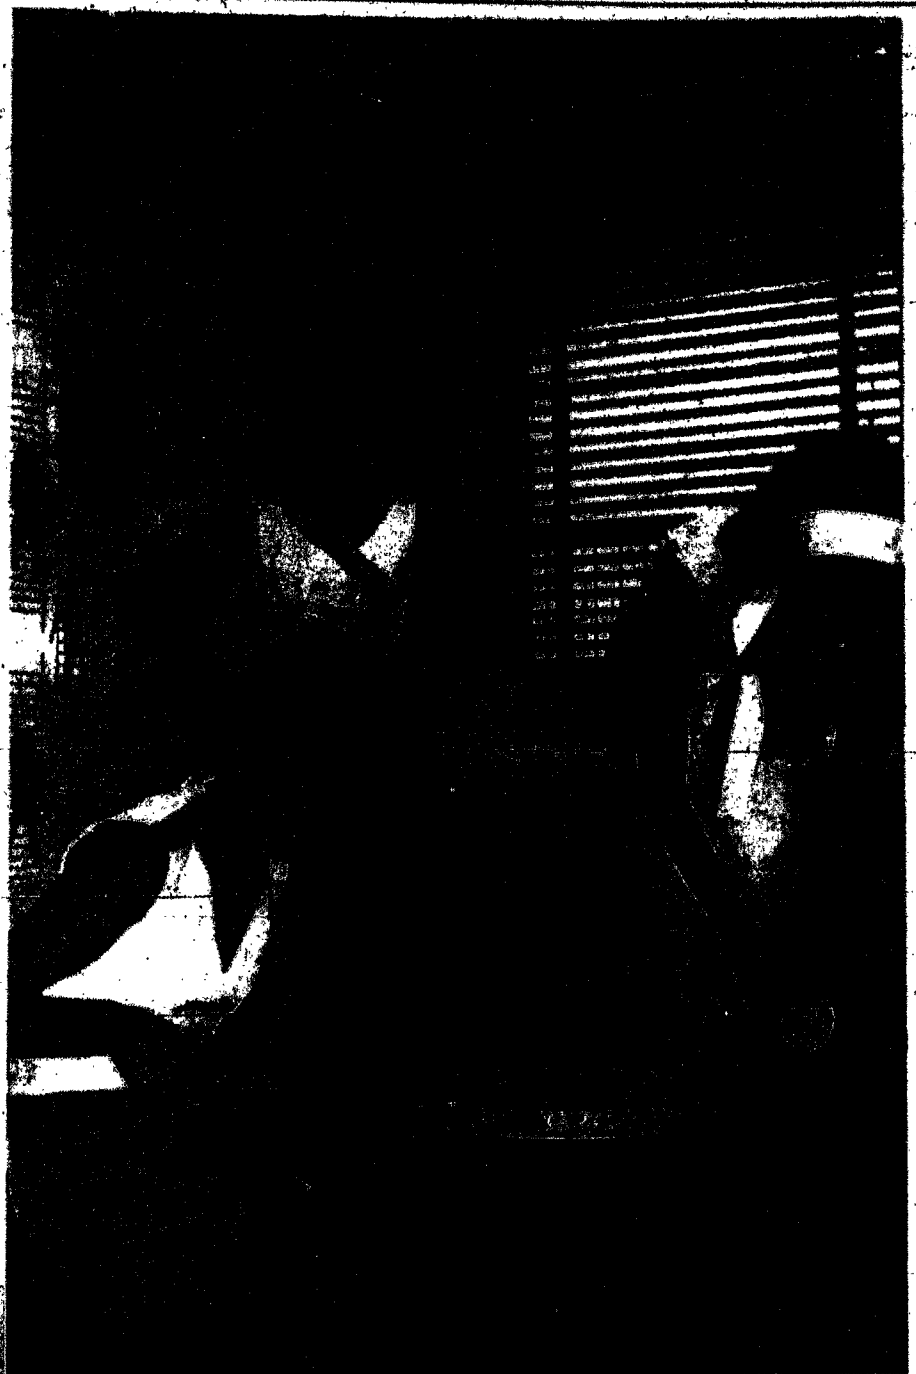

MR. AND MRS. WILLIAM CLARENCE CUNNINGHAM announce the approaching marriage of their daughter Billie to Mr. Dickie Thornton, son of Mr. and Mrs. Hubert Thornton. The wedding will be solemnized Nov. 18 at Our Lady of Perpetual Help Church in Kenner, La.

## Echoes

Herbert Cardin has returned from Pulaski, Tenn., where he was called by the death September 18, of his brother-in-law, David Minatre.

Miss Frances Noeges and Mrs. Lucille P. Weeks have returned from a three weeks visit with Miss Noeges' sister, Mrs. Frank Ferring in Dubuque, Iowa.

Melba, daughter of Mr. and Mrs. Leroy Luke, is presently on a three week vacation in Europe where she will tour nine countries.

THE BED IS BLUE, the chairs are apple green and all the children on the brightly colored wallpaper have smiling faces, in this newly decorated pediatrics room at Hancock General Hospital. Adding smiling faces to the diminutive chairs are the ladies responsible for the transformation, from left, Mmes. Sheldon Seuzeneau, Ronald Artiques and Frank Parrish, Junior Auxiliary members. Decorating was a recent project of the Bay St. Louis Junior Auxiliary.

## Don't Try to Memorize Social Security Number

Don't try to memorize your social security number. Don't especially—try to repeat your social security number from memory when an employer asks you for the number for his records when you start a new job.

That advice comes from social security officials here. "Your social security number has nine digits," a spokesman noted. "If you try to memorize it, you can easily give a wrong number when you try to repeat it. If you furnish a wrong social security number to an employer, it may cause difficulty in crediting your earnings to your social security record. That may eventually affect your social security benefits."

An employee's earnings are credited to his social security number when they are reported by his employer. The employee's earnings determine the amount of monthly social security benefits he may collect when he retires or becomes severely disabled; also the amount of benefits his family may get if he dies prematurely.

Always carry your Medicare card with you. Remember to show it to your doctor or a hospital employee whenever you need medical attention.

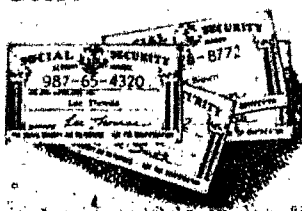

Be sure to give your employer your correct social security number when you start a new job.

You'll need proof of age when applying for social security retirement benefits.

"If all of your earnings are not credited to your social security number, your benefits may amount to less than they should," the spokesman said. Advice from social security: Always carry your social security card in your purse or wallet. When starting a new job, always show your social security card to your employer and make sure he copies the number and the name from your card.

"Remember," the spokesman said, "Don't try to memorize your social security number. It could cost you money."

## a number you can count on

Social security beneficiaries: use your claim number if you call, write, or visit a social security office. It's the 9-digit number followed by one or two letters shown on every one of your monthly benefit checks.

Don't delay applying for social security benefits. Back payments can be made for no more than 12 months.

A car emits four times as much carbon monoxide in downtown stop-and-go traffic as it does on an expressway.

New Library Mascot

## Library Selects Mascot

An unusual bird hatched last week in the City-County Public Library. A large group of Friends of the Library were in attendance at a meeting called by Mrs. Bill Argus, Jr. to watch this bird being born. Mrs. Argus had kept its egg warm for approximately 16 days a rather brief incubation period. The bird is sleek and almost featherless. Its beak comes to a point and its body is shaped very like a question mark. Its eyes are large and alert and as soon as it was out of the shell, it stood straight up.

County Public Library with unveiling scheduled for October 10 when the library will have Open House between the hours of 8:30 - 9:30 p.m.

The bird is now in the care of Mrs. Argus and Friends of the Library will dedicate themselves to the task of learning more about its origin, feeding habits and the care of this unusual and lively little creature. When the study is completed the Library Staff and Friends of the Library will release full information to the public.

## PRC Prepares To Meet 'Dogs'

They say that when old time rivals meet, you can throw all records and statistics out the window. Certainly the traditional Pearl River-Perk game qualifies as one of the top rivalries of junior college football. However, during last year, and throughout the start of this season, the Bulldogs have accumulated a group of statistics that are pretty hard to ignore.

Perk, the defending national champions, went through

## Homemakers Hold Meeting

Waveland Extension Homemakers Club held its September 19 meeting at the home of Mrs. Charles Shambley at 217 Waveland Ave. with three guests participating. Mmes. Lois Keen, Shirley Mattison and Ella Mac Mercier.

Club President, Mrs. Edward LeVasseur presided and Mrs. Earl E. Gates presented a paper on cystic fibrosis, a congenital disease of mucous glands throughout the body, usually developing during childhood and causing pancreatic insufficiency and pulmonary disorders. Mrs. Shambley also gave a paper covering fire prevention and safety regarding glass sliding doors and other glass in the home.

Mrs. LeVasseur gave a September Council meeting report to those present and announced that Mrs. Shambley would supply the homemade cake this month to the Home for the Aged.

The club's October 17 meeting will be held at 229 Marcus St. with Mrs. Joseph E. Servat as hostess.

## Wood Patio Doors Use 'Safe' Glass

Thousands of children are injured each year by accidents involving glass.

Studies estimate that a "glass" accident occurs every two minutes in the United States. Most victims are under 15 years of age.

To eliminate one source of possible danger, 30 states are considering legislation which would require use of safety glass in large glass areas such as patio doors. Eighteen states already have such laws.

Manufacturers of wood sash patio doors have long urged consumers to choose safety glass for patio doors and large glass area windows. In stock patio doors made of ponderosa pine, safety glass is now offered as a standard feature.

The industry-wide move to standardize safety glass is due to the increasing popularity of wood sash patio doors and the availability of effective safety glass.

The tempered glass used in patio doors, for example, has three to five times the impact resistance of ordinary single glazing. If it should break, it crumbles into harmless pellets.

Tempered double glazing, therefore, multiplies the benefits of wood patio doors with insulating glass. Combined with weatherstripping and wood sash, insulating glass provides maximum protection against condensation and heat loss through large glass areas. Rooms remain comfortable all year round, glass stays clear, and views are unhampered.

An easy access to backyards, patios, decks and porches, patio doors also open the house interior to the outdoors. The seasonal beauties of nature are there for all to behold.

With standard safety glass in wood patio doors, such views need not be a scene of tragedy. For further assurance of safety, homeowners should insist on safety glass for large picture windows and the glass in storm doors.

Each year, more than 1.5 million trees and seedlings are planted along highway rights of way.

their 1971 season without a defeat, and are off to an impressive 3-0 start this year. In all, it has been 21 contests since the Bulldogs from the Coast have tasted defeat. That figure may well have risen to 22 games by the time that the Wildcats get their shot at the defending champs Saturday night in Poplarville. Gulf Coast is heavily favored to defeat the Wolves from Co-Lin in their next outing.

This year the Dogs look strong again. Through three games they have out-scored

their opponents by a total score of 70-31.

In gunning to end the visitor's domination, the Bulldogs will rely heavily on their strong running attack. Judging from past contests, PRC will look to running backs L.B. Bullock and J.W. Rawls to break open for the long gainers, while relying on fullbacks Ken Bufkin, Craig Franklin, and Hamp Stewart to grind it out on up-the-middle thrusts. This trio of

power-runners will also get from last year's All-Star Jim McKay, Kenny Boyneik has turned in some fine performance, including running in for a pair of scores in Dog's 21-7 conquest of Scooba.

The River nailing attack being assigned to QB Charles Huchins. Joe Clark tops a nation's top ten last year, and solid receiving corps which also includes Jack Gallagher and Aubrey Fleming.

Perk, though obviously talented at most positions, are somewhat of an unknown commodity at this time. Most of the interior line, however, returns intact.

After inheriting the QB slot

## Haggerty-Komodowski Wed In New Orleans

Mary Jo Komodowski became the bride of Patrick E. Haggerty - August 26th at St. Dominic Catholic Church in New Orleans, La. Mary Jo is the daughter of Major and Mrs. Henry Komodowski U.S.A.F. (Ret.) of Atlanta, Ga. Patrick Haggerty is a son of Mr. and Mrs. Daniel B. Haggerty of New Orleans.

Msgr. Patrick Cunningham of Fort Walton Beach, Fla.; Rev. Henry Montecino and Rev. Davis Bosleau of New Orleans officiated.

Given in marriage by her father, the bride chose, as her maid of honor her sister, Diane; bridesmaids were Misses Eileen, Kathy and Bridget Haggerty, sisters of the groom and Miss Karen Komodowski, sister of the bride.

The best man was Michael D. Haggerty, groomsmen were Timothy Haggerty and Frederick Eagen of New Orleans; Patrick Fanning of Baton Rouge, La.; and Hank E. Komodowski, brother of the bride. Ushers were Michael Fanning of New Orleans; Terrence Fanning of Houston, Texas; Carl Winters, Edward A. and Bryan Haggerty all of New Orleans.

A reception was given at the Champagne Room by the bride's parents.

The bride, a graduate of Loyola University in New Orleans was president of Sigma Sigma Sigma, a Dean's List student, a University Fellow, a member of Cardinal Key and a dormitory counselor. Mr. Haggerty attended L.S.U. in Baton Rouge, La. and Nicholls State University,

where he was a member of Pi Kappa Alpha and is now attending a U. S. Army medical program at Fitzsimmons General Hospital in Denver, Colo., where the young couple are making their home. The bridegroom is the grandson of Mr. and Mrs. L. S. (Dec) Elliott of Bay St. Louis.

A MYRIAD of beautifully executed decorating items were on display Monday afternoon at the Senior Citizens Center, illustrating handcrafted articles being made by Thursday Stitch and Chat Club members, under the tutelage of Mrs. Mabel Martin, left, and Mrs. Nell Hansen. The ladies, who are neighbors in Kiln, are volunteer workers with the Senior

Citizens organization and will be working with the Thursday group, a newly formed activity at the Valena C. Jones center. Another table, barely visible at the right of the front table, holds more handcrafted items made by Mrs. Cecile Benvenutti.

(Echo staff photo by Adoree Shortle)

CHEERING THE WILDCATS to victory for the 1972 football season are, first row: (L-R) Jan Moody, Poplarville, Charlotte Rouffler, Picayune, Denise Ladner, Bay St. Louis, second row: Mellicent Graham, Pearl River Central, Sandy Kligore, North Forrest, third row: Rhonda Curtis, Petal, Micki Lenfant, Hancock North Central, and Marilyn Sanders, Poplarville.

### BIRTHS

Mr. and Mrs. Ronald Nelson announce the birth of their first child, Rhonda Lynn, September 28 at Gulfport Memorial Hospital. She weighed five pounds, eight ounces.

Mrs. Nelson is the former Sylvia Garcia, daughter of Mr. and Mrs. Warren Garcia of Lakeshore. Mr. and Mrs. Ronald J. Nelson of Bay St. Louis are paternal grandparents.

Private passenger cars carry 98 per cent of rural and intercity travel.

## Make Mantel Focal Point For Artwork

Why hide a favorite painting on a bare wall? Hang it handsomely above the mantel. Wood mantels of ponderosa pine can provide a distinctive focal point for a room where favorite objects are sure to be noticed. Because they are available in a variety of styles and in stock sizes, mantels are appropriate wall accents for any room decor.

An old print or family portrait and a Colonial, Federal, Georgian or Traditional wood mantel combine a mutual authenticity. The mantels are precision-detailed to duplicate the original designs. Depending on the period, details include moldings, beading, medallions and panels.

Provincial and contemporary style mantels fit well with modern decor. Painted in bold colors or stained to enhance the natural wood grain, these mantels can complement a Picasso, or a drawing your seven-year-old did at school.

Ponderosa pine mantels come ready to assemble and install. They're available at local lumber and building supply stores.

When complete, the Interstate Highway will save 10,000 lives per year, federal officials estimate.

Mrs. Argus had kept it's egg warm for approximately 18 days a rather brief incubation period. The bird is sleek and almost featherless. Its beak comes to a point and its body is shaped very like a question mark. Its eyes are large and alert and as soon as it was out of the shell it stood straight on its spindly legs and three-toed feet and emitted a cry that sounded like "Did-you-know... Did-you-know...", similar to the call of the Whip-poor-will, however the tone is more cheerful.

Friends of the Library decided to name the bird DID-you-know and have adopted him as Library Mascot. A well-known cartoonist, Russell Gould, has sketched the fowl and its likeness will appear on posters and other publications. Its portrait will also be placed in the City-

County Public Library with unveiling scheduled for October 10 when the library will have Open House between the hours of 8:30 - 9:30 p.m.

The bird is now in the care of Mrs. Argus and Friends of the Library will dedicate themselves to the task of learning more about its origin, feeding habits and the care of this unusual and lively little creature. When the study is completed the Library Staff and Friends of the Library will release full information to the public.

## PRC Prepares To Meet 'Dogs'

They say that when old time rivals meet, you can throw all records and statistics out the window. Certainly the traditional Pearl River-Perk game qualifies as one of the top rivalries of junior college football. However, during last year, and throughout the start of this season, the Bulldogs have accumulated a group of statistics that are pretty hard to ignore.

Perk, the defending national champions, went through

## Homemakers Hold Meeting

Waveland Extension Homemakers Club held its September 19 meeting at the home of Mrs. Charles Shambley at 217 Waveland Ave. with three guests participating, Mmes. Lois Keen, Shirley Mattison and Ella Mac Mercier.

Club President, Mrs. Edward LeVasseur presided and Mrs. Earl F. Gates presented a paper on cystic fibrosis, a congenital disease of mucous glands throughout the body, usually developing during childhood and causing pancreatic insufficiency and pulmonary disorders. Mrs. Shambley also gave a paper covering fire prevention and safety regarding glass sliding doors and other glass in the home.

Mrs. LeVasseur gave a September Council meeting report to those present and announced that Mrs. Shambley would supply the homemade cake this month to the Home for the Aged.

The club's October 17 meeting will be held at 229 Marcus St. with Mrs. Joseph E. Servat as hostess.

## Wood Patio Doors Use 'Safe' Glass

Thousands of children are injured each year by accidents involving glass. Studies estimate that a "glass" accident occurs every two minutes in the United States. Most victims are under 15 years of age.

To eliminate one source of possible danger, "safe" glass is being developed which would require use of safety glass in large glass areas such as patio doors. Eighteen states already have such laws.

Manufacturers of wood sash patio doors have long urged consumers to choose safety glass for patio doors and large glass area windows. In stock patio doors made of ponderosa pine, safety glass is now offered as a standard feature.

The industry-wide move to standardize safety glass is due to the increasing popularity of wood sash patio doors and the availability of effective safety glass.

The tempered glass used in patio doors, for example, has three to five times the impact resistance of ordinary single glazing. If it should break, it crumbles into harmless pellets.

Tempered double glazing, therefore, multiplies the benefits of wood patio doors with insulating glass. Combined with weatherstripping and wood sash, insulating glass provides maximum protection against condensation and heat loss through large glass areas. Rooms remain comfortable all year round, glass stays clear, and views are unhampered.

An easy access to backyards, patios, decks and porches, patio doors also open the house interior to the outdoors. The seasonal beauties of nature are there for all to behold.

With standard safety glass in wood patio doors, such views need not be a scene of tragedy. For further assurance of safety, homeowners should insist on safety glass for large picture windows and the glass in storm doors.

Each year, more than 1.5 million trees and seedlings are planted along highway rights of way.

their 1971 season without a defeat, and are off to an impressive 3-0 start this year. In all, it has been 21 contests since the Bulldogs from the Coast have tasted defeat. That figure may well have risen to 22 games by the time that the Wildcats get their shot at the defending champs Saturday night in Poplarville. Gulf Coast is heavily favored to defeat the Wolves from Co-Lin in their next outing.

This year the Dogs look strong again. Through three games they have out-scored

their opponents by a total score of 70-31.

In gearing to end the visitor's domination, the Wildcats will rely heavily on their strong running attack. Judging from past contests, PRC will look to running backs L.B. Bullock and J.W. Rawls to break open for the long gainers, while relying on fullbacks Ken Bufkin, Craig Franklin, and Hamp Stewart to grind it out on up-the-middle thrusts. This trio of

power-runners will also get the call in short yardage and goal-line situations.

The River passing attack appears to be in good hands, with most the passing chores being assigned to QB Charles Hutchins. Joe Clark tops a solid receiving corps which also includes Jack Gallagher and Aubrey Fleming.

Perk, though obviously talented at most positions, are somewhat of an unknown commodity at this time. Most of the interior line, however, returns intact.

After inheriting the QB slot

from last year's All-Star Jim McKay, Kerney Boynick has turned in some fine performances, including running in for a pair of scores in Dog's 21-7 conquest of Scooba.

Both teams wound up in the nation's top ten last year, and the records to date indicate that a repeat of that fact is a distinct possibility. The only thing that kept the Wildcats from a perfect 10-0 record last year was a 37-21 beating at the hands of Perk. Revenge, rivalry, and national rankings will make this far more than "just another game."

### PROGRAM Electronics

Item No.	Name, description and specifications	Quantity
30	Oscilloscopes; Dual Trace, Time Base with plug-in units Specifications for Vertical Deflection. (1) Dual trace for frequencies from DC to 10 mega Hertz (2) Differential for frequencies from DC to 10 MHZ, 10 Micro volts/division (3) Sampling for frequencies from DC to 14 GHZ, 2 Sps (4) Spectrum Analyzer for frequencies from DC to 36 MHZ Horizontal sweep Specifications provided by plug-in Amplifier below line voltage requirements: (1) Either 90V to 136V or 180V to 272V at a frequency of 48HZ to 440 HZ. Equal to or better than Tektronix Oscilloscope Model 561B	5
30-1	10MHZ Dual-Trace Amplifier -- Bandwidth: 10MHZ at 3db down AC coupled low-frequency response is 2HZ, 0.2HZ, with 10X probe. Deflection Factor: 10mV/DIV to 10V/DIV in 10 calibrated steps. Rise time: Approximately 35 nanoseconds. Maximum input Voltage: 600 VDC plus peak AC Two channel operation with signal delay capabilities. Equal to or better than Tektronix Plug-in Amplifier Model No. 3A6.	5
30-2	Time Base Unit 0.5 Microseconds/DIV to 1 second/DIV in 20 calibrated steps 5X Magnifier to expand sweep to 0.1 microsecond/ DIV delay time & delay time multiplier accurate within 0.2 percent delay range of 2.5 u sec to 2 sec to 10 seconds Differential time accuracy of 1 percent Trigger modes (1) Normal-sweep trigger - manual or automatic (2) Delayed-sweep trigger - manual (3) Coupling - AC or DC Sources: Internal & External Equal to or better than Tektronix Time Base Unit Model 3B3	10
30-3	Probe Package for above oscilloscopes to provide 1X attenuation. Equal to or better than Tektronix Model P6028 (010-0074-00)	10
30-4	Probe Package for above oscilloscopes to provide 10X attenuation. Equal to or better than Tektronix Model 6006(010-0127-00)	10
30-5	Carts for Scope Mobility with drawer for accessories. Equal to or better than Tektronix Model 201-1	2
35	Dynamic Transconductance Tube Tester: Specifications (1) capable of testing shorts and leakage of currents as low as 0.5 microamperes and resistances of 1 meg ohms. (2) Grid emission test for grid leakage up to 100 meg. ohms. (3) multi-unit tube testing to provide for each unit to be tested separately. (4) rugged construction. Equal to or better than B & K Precision Test Equipment Model 747 "Dyna Jet".	1
125	Old Tube Checker - Hickok Model No. 800A, Inventory No. 02872, to be traded in. Technician Stands: 30" x 72" comprised of basic cabinet with one adjustable shelf, hinged drawer, and one No. 110 drawer equal to or better than Workplace Systems, Inc. Item of Stock NR240-3010 from catalog 370. Basic Cabinet with 5 drawers to comprise one side of technician stands. Equal to or better than Workplace Systems, Inc. Londonderry N. H. Stock No. 245-3010 from catalog 370. Work Surfaces for Tops of Technician Stands: 36" x 72" made of laminated maple of 1-3/4" thickness. Equal to or better than Workplace Systems, Inc. 800 Swaptop Stock No. 853672M Fixed Risers for Technician Stands: Risers stand 18" above tabletop with 12" shelf, front of shelf with a minimum of 3 Duplex electrical outlets for 120V AC. Riser is 72" long Equal to or better than Workplace Systems, Inc., Stock No. 304-18-1272E.	16

## Haggerty-Komodowski Wed In New Orleans

Mary Jo Komodowski became the bride of Patrick E. Haggerty - August 26th at St. Dominic Catholic Church in New Orleans, La. Mary Jo is the daughter of Major and Mrs. Henry Komodowski U.S.A.F. (Ret.) of Atlanta, Ga. Patrick Haggerty is a son of Mr. and Mrs. Daniel B. Haggerty of New Orleans.

Msgr. Patrick Cunningham of Fort Walton Beach, Fla.; Rev. Henry Montecino and Rev. Davis Boslean of New Orleans officiated.

Given in marriage by her father, the bride chose, as her maid of honor her sister, Diane; bridesmaids were Misses Eileen, Kathy and Bridget Haggerty, sisters of the groom and Miss Karen Komodowski, sister of the bride.

The best man was Michael D. Haggerty, groomsmen were Timothy Haggerty and Frederick Eagen of New Orleans; Patrick Fanning of Baton Rouge, La., and Hank E. Komodowski, brother of the bride. Ushers were Michael Fanning of New Orleans; Terrence Fanning of Houston, Texas; Carl Winters, Edward A. and Bryan Haggerty all of New Orleans.

A reception was given at the Champagne Room by the bride's parents.

The bride, a graduate of Loyola University in New Orleans was president of Sigma Sigma Sigma, a Dean's List student, a University Fellow, a member of Cardinal Key and a dormitory counselor. Mr. Haggerty attended L.S.U. in Baton Rouge, La. and Nicholls State University,

where he was a member of Pi Kappa Alpha and is now attending a U. S. Army medical program at Fitzsimmons General Hospital in Denver, Colo., where the young couple are making their home. The bridegroom is the grandson of Mr. and Mrs. L. S. (Dec) Elliott of Bay St. Louis.

A MYRIAD of beautifully executed decorating items were on display Monday afternoon at the Senior Citizens Center, illustrating handcrafted articles being made by Thursday Stitch and Chat Club members, under the tutelage of Mrs. Mabel Martin, left, and Mrs. Nell Hansen. The ladies, who are neighbors in Kiln, are volunteer workers with the Senior

Citizens organization and will be working with the Thursday group, a newly formed activity at the Valena C. Jones center. Another table, barely visible at the right of the front table, holds more handcrafted items made by Mrs. Cecile Benvenuti.

Mrs. Nelson is the former Sylvia Garcia, daughter of Mr. and Mrs. Warren Garcia of Lakeshore, Mr. and Mrs. Ronald J. Nelson of Bay St. Louis are paternal grandparents.

Private passenger cars carry 98 per cent of rural and intercity travel.

## Make Mantel Focal Point For Artwork

Why hide a favorite painting on a bare wall? Hang it handsomely above the mantel. Wood mantels of ponderosa pine can provide a distinctive focal point for a room where favorite objects are sure to be noticed. Because they are available in a variety of styles and in stock sizes, mantels are appropriate wall accents for any room decor.

An old print or family portrait and a Colonial, Federal, Georgian or Traditional wood mantel combine a mutual authenticity. The mantels are precision-detailed to duplicate the original designs. Depending on the period, details include moldings, beading, medallions and panels.

Provincial and contemporary style mantels fit well with modern decor. Painted in bold colors or stained to enhance the natural wood grain, these mantels can complement a Picasso, or a drawing your seven-year-old did at school.

Ponderosa pine mantels come ready to assemble and install. They're available at local lumber and building supply stores.

When complete, the Interstate Highway will save 10,000 lives per year, federal officials estimate.

## Librarians To Gather In Long Beach

Librarians in the Long Beach Municipal Separate School District will be hostesses to the Region Seven meeting of the Mississippi State Association of School Librarians (MASL) this Saturday at the Long Beach District Office on Commission Road.

School librarians from six counties in the Southern and Southeastern areas of the state are invited to attend, according to Mrs. Elizabeth Fletcher, supervisor of library services in Long Beach. The participating counties are Harrison, Hancock, Pearl River, Stone, George, and Jackson.

Registration will begin at 9 a.m. Saturday and extend until 9:30 a.m. Ted Hannah, public relations director for the Mississippi Educational Television Commission, will address the librarians and present a slide and film show. His topic will be: "Progress: Plans of the Mississippi Educational Television Commission."

Following his address, the meeting will conclude with a lunch luncheon.

Mrs. Jeanette Reinike, librarian at Jeff Davis Elementary School, is president of the Region Seven librarians.

Mrs. Fletcher extends an invitation to all librarians or anyone interested in educational television to attend.

**PASS ISLES GOLF SCORES**  
Earlene Russo won low gross with a score of 83 Tuesday at the Pass Christian Isles Country Club.

Fay Dossett had low net with a 69, and Gay Billups had low putts with a 26.

The luncheon was termed a huge success by the members as 75 persons were in attendance. The next luncheon is scheduled for Oct. 10.

BOARD OF DIRECTOR OF Bay St. Louis-Waveland Altrusa Club were also installed Tuesday night during ceremonies at Diamondhead Country Club. Mrs. Rhett, installs, from left, Mrs. Princess Fahey, Miss Nanci Campbell and Mrs. Helen Necaise. (Echo staff photos by Marileen Maher)

ST. CLARE'S WARRIORS score the only touchdown against Stanislaus' seventh and eighth graders. The final score was 6-0. Santo Saucier was responsible for the TD. (Photo by Scott Fayard)

## Greyhound Announces Ameripass Travel

Ameripass, Greyhound's new 60-day unlimited travel ticket, is now available in Bay St. Louis, according to W.L. Little Sr., Greyhound representative.

Little said Ameripass offers complete freedom and flexibility of travel by bus for 60 days for only \$149.50.

Using Ameripass, a traveler can go anywhere in the United States and many areas in Canada over Greyhound's

100,000 miles of routes, reaching 40,000 cities and towns, Little said.

Ameripass holders are also eligible for special discounts on hotels, sightseeing, automobile rentals and other travel services.

Little pointed out that Ameripass rates break-down to \$2.50 a day. "It's the most economical way to see this great land of ours," he said.

There are no limitations on the time of day or day of week Ameripass may be used during the 60-day period. Nearly 100 other intercity bus companies in the United States and Canada honor Greyhound's Ameripass.

For additional information contact Little at 410 Ulman Ave., 467-4272.

## Echoes

Jennifer Lee Cunningham daughter of Mr. and Mrs. I.E. Cunningham, Jr., of Jackson, Miss., is visiting with her great-grandmother and great aunts, Mrs. Walter Turcotte, Sr., Cecile, Evelyn and Mary Margaret, while her parents are on tour of cities on the Rhine.

Mrs. Laura Carrio, of Baton Rouge, La., is visiting with her sister-in-law Mrs. Walter Turcotte, Sr., and family for several weeks.

Mrs. Pauline Weston celebrated her 101st birthday September 22. Joining her at Gulf Haven Rest Home for the occasion was her son Clem Weston of New Orleans.

On Sunday Mrs. Weston was honored with a dinner at Hayerty's Restaurant, Waveland, hosted by Mr. and Mrs. Lamar Otis. Others attending were Mr. and Mrs. Al Snyder, Mr. and Mrs. Henry Otis, Miss Jan Harvill and Mrs. Gladys Chapman.

Mrs. Wallace Chevis Sr. was among those from the Coast who attended the 50th wedding anniversary reception Friday in New Orleans honoring Mr. and Mrs. Ewell St. Amant, hosted by their daughters Mrs. Gogriev and Mrs. W.H. Chevis in the Gogriev home.

Rev. Bernard Walton, Travis Hensley, Robert Delcuz, Mrs. Fred Rose and Mrs. Wallace Chevis Sr. attended a meeting of "Key 73" in Hattiesburg Monday night.

## SPORTS

### Tigers Defeat Blue Devils, 14-0

The Tigers of the Bay High defensive unit proved to be too much for the Blue Devils of Pearl River Central holding them scoreless in their football game Friday night at Carriere.

The Tigers managed two scores in the first half, but were held scoreless in the second half.

The first Tiger score came with 3:45 left in the first period when Jimmy Perniciaro crossed the goal line from two yards out, climaxing a 47-yard drive in seven plays. The extra point attempt from placement by Sam Piazza was good, making the score 7-0 in favor of the Tigers.

With 4:08 left in the second

quarter Tiger quarterback Fred Bilbo threw a 30-yard pass to Willie Thomas for the TD. Piazza was once again successful on the extra point attempt. The TD drive went 67 yards in eight plays. This ended the scoring in the game.

The Tigers took a 14-0 lead into the dressing room, at halftime.

The second half of the game was strictly a defensive battle as neither team could cross the goal line.

This week the Tigers will be at home at Tiger Stadium against the Hancock North Central Hawks.

SCORE BY QUARTERS:  
Bay High 7 7 0 0-14  
Pearl River 0 0 0 0-0

### Warriors Beat Coast Episcopal

The Coast Episcopal Red Raiders played St. Clare of Waveland in a junior high football game Saturday at Pass Christian stadium. St. Clare won the game 20-12.

St. Clare scored first with the block of a Raider punt and a 46-yard run for the goal. The Red Raiders came right back with a 37-yard touchdown run by Bruce Hendrix. The first quarter ended 6-6 with extra point tries by both teams failing.

The second quarter was all St. Clare's, giving them a 20 to

6 half-time lead.

The fourth quarter started 20 to 6 too, the third being scoreless. Halfway through the last quarter, the Raiders brought the ball game to 20 to 12 with a 12 yard hand-off. The Raider's chance for a tie was halted by an interception which ended the game.

### Eagan, Merlin Take Sunfish Regatta

Marc Eagan took top honors in the Senior Division of the Invitational Sunfish Regatta held at Bay Waveland Yacht Club Saturday and Sunday. The closely com-

petitive Junior Division, 15 years and under, was won by Chip Merlin.

The final race Sunday morning was sailed in such a stiff breeze and choppy sea that eight of the twenty boats starting the Series had to withdraw from the race.

Bill Flanders and his crew Ricky Flanders sailed to second place in the Senior Division, followed by Woody Stieffel, third.

Beau Gex and his crew, Dennis Stieffel were second place in the Junior Division.

Linda Flanders and her crew Cindy Stieffel tied for third place with Chris Stieffel.

Biloxi Yacht Club will host an Invitational Sunfish Regatta September 30 and October 1.

Gulfport Yacht Club will be the scene of the next Sunfish contest, October 14 and 15.

## Rocks Lose First Conference Game

The St. Stanislaus Rock-A-Chaws were handed their first Gulf Coast Conference loss of the season by the Red Rebels of Harrison Central by the score of 26-0.

The defense of the Rebels was just a little too much for the Rocks forcing them to punt four times. The deepest penetration for the Rocks was to the Rebels 36-yard line and that was in the third quarter.

The Red Rebels scored in each quarter. The Rebels scored their first TD of the game with 6:04 left in the first quarter ending a 41-yard drive in eight plays. The score came on a handoff from Rebel quarterback Jay Daniel to running back Willie Williams from the two-yard line. The extra point attempt from placement by Daniel was good, giving the Rebels a 7-0 lead.

With a little under two minutes gone in the second quarter the Rebels put their second score on the board after Artell Walker recovered a Stanislaus fumble on the Rocks 18-yard line following a hand off from Rock quarterback Lance Oustalet to Rick Kergosen. It took two plays for the Rebels to cross the goal line. Daniels on a keeper from the six yard line. Daniels extra-point attempt was no good.

The Rebels took a 13-0 lead into the dressing room at halftime. Harrison Central took the opening kickoff in the third quarter at their own goal line and in ten plays put another score on the board on a 19 yard pass from Daniel to Garland Crosby with 6:22 to go. Daniel attempted the extra point from placement and it was good making the score 20-0.

With one minute to go in the third quarter the Rocks were beginning to move toward the Rebels goal line when Oustalet fumbled on the Rebel 34-yard line. William Watson recovering the ball for the Rebels. Two plays later Daniel fumbled on his own 20-yard line where Mike Siebert recovered for the Rocks as time ran out in the third quarter.

After a five-year

against the Rocks, putting the ball on the Rebels 31-yard line, the Rocks were unable to move the ball and the Rebels took over on their 31. The Rebels were unable to get past the Rocks 25-yard line where the Rocks took over.

On the first play the Rocks were penalized 15 yards for clipping, moving the ball back to the Rocks 10. With fourth down and 11 yards to go, Oustalet went back to punt. Harrison Central was penalized 15 yards for roughing the kicker, giving the Rocks another chance on offense from their own 40. On first down, Oustalet attempted a pass to Hymel, but was intercepted by the Rebels at the Rock 45 and returned to the 37.

The Rebels were unable to move the ball giving it back to the Rocks at the 37-yard line with 3:47 to go. Stanislaus moved the ball 11 yards to the 48 for a first down. First down and ten Hoda fumbled on his own 41 where Darrel Dillard recovered for the Rebels. 2:00 minutes to go in the game.

Six plays plus a 15-yard penalty for roughing the passer put the Rebels on the scoreboard again with the TD coming on a pass from Daniel to Richard Taylor for 20 yards, with 38 seconds left in the game. Daniel's extra point attempt from placement was no good. Final score 26-0.

This week Stanislaus will host Coast Episcopal at Rock-A-Chaw Stadium at 7:30 p.m.

ERICLYMUEL, a 1972 Bay Senior High graduate, is playing a defensive back position for the PRC-Wildcats. In Eric's last outing, he intercepted a pass against the East-Central Warriors. The Wildcats' next opponent will be against the Gulf Coast Bulldogs in Poplarville, September 30.

DAVID JOHNS, a senior at St. Stanislaus, has been named to the McDonald's All-American Band.

## Hawk-OLV Game Ends In Tie

In a Pascagoula River Conference football contest at Hancock North Central Friday night the Hawks of North Central and the Eagles of Our Lady of Victories of Pascagoula battled to a 6-6 tie.

Neither team was able to cross the goal line in the first three quarters of the game. The first score of the game came with five minutes left in the fourth quarter when Hawk quarterback Rickey Randall threw a 20-yard pass to end Ernest Keys for a touchdown. The extra point attempt from placement by Keys was wide and the score was 6-0 in favor of the Hawks.

The Eagles recovered a Hawk fumble deep in Hawk territory with about one minute left in the game. After moving the ball to the Hawks two-yard line, Eagle fullback Ted Watson scored 6 points on a two-yard plunge. Eagle quarterback Brad Hemenway

tried for a two-point conversion on a quarterback keeper but was stopped short of the goal line, making the score 8-6 with 50 seconds to go in the game.

Friday night the Hawks travel to Bay St. Louis to play the Tigers of Bay High.

## Johns Named To All-American Band

David Johns, a senior at St. Stanislaus High School in Bay St. Louis, has been selected to play in the McDonald's All-American High School Band in the Macy's Thanksgiving Day Parade in New York City and in the Tournament of Roses Parade in Pasadena, California, on New Year's Day.

Mr. Paul Lavalle, musical director at Radio City Music Hall in New York City, will be the director of this All-American Band. Only two high school students are selected from each state to form this one hundred piece band. McDonald's Corporation is providing an all-expense paid trip to and from New York City and to and from Pasadena, California, including hotel accommodations and meals, for the selected students.

David, the son of Mr. and Mrs. Watson Johns of 310 Carroll Avenue in Bay St. Louis, is in his sixth year at St.

Stanislaus and in his fifth year of playing the tuba in the school band. He has won three superiors in solos in statewide competition. He was a member of the All-State Band in 1970 and 1971. He was the outstanding upper classman of the St. Stanislaus Band in his junior year. In his senior year he is president of the band.

## Park Dedication Set Friday In Picayune

Walkiah Bluff Water Park near Picayune will be formally dedicated Friday.

Announcement of the dedication was made last week by Tom Virden, president of the Pearl River Basin Development District. The park is the first of a series

to be dedicated along the entire length of the Pearl under the District's Pearl River Boatway Program.

The park is centered around a boat launching ramp, pavilion and picnicking facilities. The roads and parking areas were built by the Pearl River County Board of Supervisors.

The dedication ceremonies are scheduled to get underway at 11 a.m., followed by a catfish cookout and ending shortly after 1 p.m. The public is invited.

Pearl River County is represented on the Pearl River Basin Development District Board of Directors by Lampton Williams of Poplarville and A. T. "Argie" Stewart of Picayune.

By L. S. (Doc) Elliott

Had a little tinge in the air over weekend. Now that autumn is here may be there will be some colder weather coming our way.

Along the fishing life nice size croakers are being caught most every where. Close to home they are being caught up Jourdan River, Bayou Lacroix, especially at Devil's Elbow where speckles were also caught over the weekend. Some croakers were gotten in the croaker hole in Pearl River. A little early however for the big ones to be in the hole. They usually appear during the World Series which is not far off. The croaker hole is at the mouth of upper Campbell's Bayou where it runs into Pearl River proper.

Some of our local dove hunters killed some doves over the week end but they had to go to north Alabama to get them. Making the trip plus the \$10 to hunt in the field and a special permit makes the cost of doves about \$3.00 each. Doves should be down our way during the second segment of the split season, which will be in November. Doves are migratory birds and come south with cold weather.

Anthony Milton who works for the A & P grocery caught an ice box of white trout, croakers and a few speckles off the Hi-way Bridge one day last week. Anthony is one of our younger fishermen and goes after them on every occasion.

Ed Virgilio and Chester Bourgeois have been catching some nice hard crabs lately down by Bayou Caddy. They are good size and full of meat, they claim.

Allen Bowman is a local building contractor. A softball player and bird hunter. Allen wants to take up fishing as another hobby. There are plenty fish being caught right now, Allen.

The road going to Bordage Bros. Camp on Bayou Caddy is being repaired and is in bad condition, but passable. The canals at Bayou Caddy are always good fishing spots especially when speckles are running. Other salt water fish are caught there.

Saw another old time fisherman, Bob O'Neal. Bob has been taking the grandchildren out fishing lately. Catch their share of fish, too.

Thought this would be of interest to Union Members. Washington, D.C. The oldest union in the United States, International Typographical Union 101, celebrated its 157th birthday with a dinner that recalled why the ITU has "chapters" instead of local unions. Because of anti-union laws and injunctions that destroyed many unions in the early 1800's the printers-many of whom were soldiers in George Washington's Revolutionary Army - decided on the religious nomenclature. In addition to "chapters", the

shop stewards were called "fathers." - Painters Union Booklet.

I was once a member of the ITU years back.

Was with regret we heard of the death of Emile A. Schindler last week. He was 57 years of age. Emile was an ardent fisherman and shrimp. Sympathy is extended to his family.

The Louisiana Wild Life and Fisheries Commission, announced that a certain portion of Area 1, located in St. Landry Parish, will be closed to deer hunting this year.

The closed portion includes the sections between the Thistlethwaite Wildlife Management Area and Hwy. 359 on the east and north, between Louisiana Hwy. 10 and the Thistlethwaite Wildlife Management Area on the west, and between the Thistlethwaite Wildlife Management Area and Louisiana Hwy. 103 on the South.

A.J. Scavo of Waveland catches crabs and fishes. He said when he gets time he is going to take up a little hunting. All of these sports are good, we say.

Clarence Boughman is a real sport. He fishes and hunts. His favorites are hunting squirrels and rabbits. He is waiting for the weather to get colder to go after them. Too hot now he claims. You are right, Clarence.

Pete Richardson, better known as Peter Gunn, claims he caught some bull croakers off the American Legion Pier. Bill Overall is his fishing buddy. Bill is with the space program at Michoud. He is retired from the U.S. Navy. Pete spent most of his life on Jourdan River. Knows his fishing.

The following is the advice of Dick Kovac, president of Fred Arbogast Co. who makes the "Bait of Champions" fly fishing and casting baits. Personally I prefer the 1150 Series or the Hula Poppers mostly black baits. They are best for fly rod fishing for Black Bass (Green Trout) any old time.

There are a few other items that affect bass and you should take them into consideration when planning your fishing days. I think the barometric pressure or weather affects bass and therefore, I prefer to fish a falling barometer more than any other type. I think the most difficult to fish is a bright, calm day. During this type of fishing I prefer to fish very early in the morning or late in the afternoon or, if it is summertime, I then prefer to fish at night.

You should consider the above when bass fishing. It pays off.

Henry E. Gonzales who really enjoys fishing has a home in Waveland and does fishing by wading out in front of Waveland with his son, Henry, Jr. and brother Walter

**SPORTSMAN OF THE WEEK** One of our most ardent fishermen and sportsmen is Wade R. Embry. Wade likes any kind of fishing, crabbing, etc. Always ready to go. Nothing like the Miss. Gulf Coast, he claims.

Gonzales caught 66 speckles and 8 flounders Labor Day weekend. He tied a plastic ice box to his waist to put the fish in. What will fishermen concock to make things easier?

Joseph Housey is another fisherman. Joe spends his weekends at the Bay and goes fishing on every occasion. He is a friend of Clayton Seely. Enough said.

Terrell Manieri was over visiting his mother over the weekend. He was mingling with friends and reminiscing about happy things of some time back. Terrell is a local boy. Now resides in New Orleans.

Luke Elliott will be down next weekend to do some fishing and play a little golf. Luke also hunts when the seasons are open. He lives in Baton Rouge.

What is more exciting than fishing in bayous and cuts between forks that are outstanding for not only large mouth bass, but also crappie, catfish and perch? Fly fishing is wonderful but for those who don't fly fish a perch pole with worms, minnows or other live baits can be just as exciting.

Did you know that the ditches down by the Tennessee gas works at Analey is a nice fishing spot for perch and bass still fishing. And that John's Bayou a little further down the road is an excellent place for fly fishing and casting for both perch and bass?

There are so many fishing spots that are good near it is hard to name by good nearly it is hard to name all of them. Two are Wolf River and Bayou DeLisle over the Bay back of Pass Christian. Right now salt and fresh water fish are being caught. Fly fishing and casting is good most of the time and trolling for speckles will start soon in these waters.

Don't forget that Federal Duck Stamp when planning to go duck hunting. They can be purchased at the local Post Office, and they are a must.

## TO THE PEOPLE OF HANCOCK COUNTY:

Mr. Michael Smith, Director, Hancock County Port and Harbor Commission, continues to disclaim responsibility for his failure to make application to the Economic Development Administration for federal funds in the amount of \$260,000 for the initial phase of the Stennis International Airport expansion project. In need of a "fall guy", Mr. Smith, last week issued a series of statements to the press designed to assign his failure to me, M.G. (Jack) Seuzeneau. I will, in this letter, quote the published statements of Mr. Smith and, one by one, respond to them truthfully and factually.

Dr. John B. Levens, President, Hancock County Port and Harbor Commission, on Friday September 22, through the medium of the Daily Herald Newspaper, interjected himself into this matter in an effort to aid Mr. Smith. I will also respond, one by one, to Dr. Levens allegations.

But first, in order to enhance the comprehension of the readers of this newspaper in this matter, I find it necessary to review Mr. Smith's original statement to the Daily Herald of September 15 and my response in a letter to the editor, Sea Coast Echo of September 21.

**ORIGINAL STATEMENT - By Mr. Michael Smith - Daily Herald - September 15**

An application for an initial \$260,000 from the Economic Development Administration which should have been filed in January but inadvertently was not has apparently jeopardized the commission's priority to receive the monies, Commission Director, Dr. Michael Smith said Thursday night.

The application was to have been filed by airport manager M.G. (Jack) Seuzeneau but was not - the oversight was not discovered until recent weeks, Dr. Smith indicated.

**RESPONSE - by M.G. (Jack) Seuzeneau - letters to the editor - Sea Coast Echo - September 21**

I, M.G. (Jack) Seuzeneau, during my tenure as aviation Director of the Stennis International Airport, have never had the responsibility, nor the authority, nor have I ever been directed to file application for any funds from Federal, private or from any source whatsoever.

Initial and final responsibility for this failure rests entirely on the shoulders of Mr. Smith and he, alone must answer for the \$260,000 loss to the people of Hancock County.

**STATEMENT NUMBER 2 - by Mr. Michael Smith - Sea Coast Echo - September 21**

Mr. Smith now contends that Seuzeneau was directed to take the necessary steps to obtain the information for the applications and to prepare them for a pre-filing conference in connection with the extension of the airport runway. He referred to a resolution, passed January 6 by the Port and Harbor Commission and later ratified by the Board of Supervisors, in which Seuzeneau was authorized to "act before and on behalf of this commission in obtaining signatures on EDA Form 612 and EDA Forms 501-A and 503-A, and take all necessary steps in order to promulgate the required information for a pre-filing conference in connection with the extension of the airport runway".

**RESPONSE TO STATEMENT NUMBER 2**

This statement is true in every respect. This resolution was passed by the Port and Harbor Commission and was later ratified by the Board of Supervisors. It specifically directed me to obtain signatures on the above mentioned EDA Forms and to take all necessary steps to promulgate the required information for a pre-filing conference. That and nothing more. Even though it seems that Mr. Smith does not understand the content of this resolution, the most astute lawyer could not interpret this resolution as directing me to file application for the EDA funds.

**STATEMENT NUMBER THREE - by Mr. Michael Smith - Sea Coast Echo - September 21**

Smith said that these applications were never completed by Seuzeneau and were never presented to the commission for a pre-filing conference.

**RESPONSE TO STATEMENT NUMBER 3**

These papers were prepared and were presented to Mr. Smith shortly after Mr. Smith officially assumed the directorship of the commission. I was told by Mr. Smith and I quote his exact words, "keep these papers and don't let them get away from you".

My work was done and it was now Mr. Smith's responsibility to call for a meeting of the commission for a pre-filing conference, and also to take action to request an extension until May 1972 from EDA for filing of the application which the EDA people indicated would be granted.

**STATEMENT NUMBER 4 - by Mr. Michael Smith - September 22 - Daily Herald**

When I came on board Seuzeneau told me that the application had been prepared and submitted and that no further action was required until after the FAA granted a tentative allocation for the project. He also said that EDA's representative for Mississippi, Bob Ainsworth, confirmed that the application had been taken care of.

**RESPONSE TO STATEMENT NUMBER 4**

The first part of this statement wherein Mr. Smith said that I told him that the application had been submitted is simply not true. I did not tell that to Mr. Smith. With reference to the second part of this statement, I have no knowledge of what Mr. Ainsworth may or may not have told Mr. Smith.

**STATEMENT NUMBER 5 - Dr. John B. Levens - Daily Herald - September 22**

Dr. John B. Levens, Port and Harbor Commission president, confirmed Friday that responsibility for submitting the application was Seuzeneau's noting Seuzeneau had worked with Pettis Walley of the Southern Mississippi Planning and Development District to prepare the application.

**RESPONSE TO STATEMENT NUMBER 5**

Evidently, Dr. Levens also does not understand the language of the resolution which did not empower me to submit application for the funds.

This statement by Dr. Levens detracts from the credibility of Mr. Smith's statement number four in which Mr. Smith said that I had told him that the application had been prepared and submitted and that no further action was required until after the FAA granted a tentative allocation for the project. If Dr. Levens was aware that I was working with Pettis Walley of the Southern Mississippi Planning District to prepare the preliminary papers for the pre-filing conference, I wonder why he did not tell Mr. Smith.

**STATEMENT NUMBER 6 - Dr. John B. Levens - Daily Herald - September 22**

Seuzeneau failed to bring to Dr. Smith's attention that this application was in Seuzeneau's desk drawer - never once did he bring this to the commission's attention either.

**RESPONSE TO STATEMENT NUMBER 6**

The first part of this statement is untrue. Dr. Levens had no way of knowing whether or not I failed to bring this matter to Mr. Smith's attention. However, he may have been told that by Mr. Smith.

To respond to the second part of this statement, I brought it to the attention of Mr. Smith who was my superior. Please refer to my response to statement three for more detail.

**STATEMENT NUMBER 7 - Dr. John B. Levens - Daily Herald - September 22**

Dr. Levens did say, however, that "I do not think Seuzeneau intended any harm to the Commission, the County or to the board of supervisors."

**RESPONSE TO STATEMENT NUMBER 7**

This statement is absolutely correct and I thank Dr. Levens very much.

I now call on Mr. Smith and Dr. Levens, jointly or individually, with the aid of legal counsel, if they deem it necessary, to explain to you the people of Hancock County how they interpreted the Port and Harbor Commission resolution of January 6 as giving me authority or direction to actually file application for the EDA funds in the amount of \$260,000?

With deep regret for the necessity of this letter, I remain

Sincerely,

SIGNED: M.G. (Jack) Seuzeneau

MISS SUSAN RYAN, right, was the guest speaker at the OLG Parents Club meeting. With her, are Mrs. Michael Haas, program chairman, and David Truetel, Parents Club president.

## Reading Problems Discussed At OLG Parents Meeting

Miss Susan Ryan, guest speaker at Our Lady of the Gulf P.T.O. meeting last Thursday night in the school cafeteria, discussed good reading habits and the early signal of reading problems and ways of motivating the children. The speaker was introduced by Mrs. Michael Haas, program chairman.

Rev. Daniel Gallagher, associate pastor of Our Lady of the Gulf Parish, offered the

opening prayer and Very Rev. Gregory Johnson, pastor, welcomed the new officers, sisters, school board, faculty and P.T.O. members and pledged his full cooperation. P.T.O. president David Truetel introduced the other officers: Mrs. A.M. Thomas, vice president; Mrs. William Argus, secretary and Mrs. Lawrence Favre, treasurer.

During the business session Mrs. Phil Kergosien was

elected P.T.O. representative to the school board and Donald Corr was elected a delegate to the Parish Council.

Mr. Trentel appointed Mrs. Donald Corr box lunch chairman for the school year and Mesdames Kergosien, E.V. Aime and Thomas, chairmen for the annual penny party.

Reports were heard from Mrs. Edgar Spratley, welcome committee chairman; Hank Stockman, co-chairman carnival ball, and Mrs. Ames Kergosien, suggestion box chairman.

Sister Patricia Brandner, principal, explained the new methods of grading students in religion classes and noted that in order to qualify for a library reading certificate, students are required to read 20 books during the school term.

Sister Patricia presented the following faculty members: Mrs. John Scianna, S.A., Michael Ryan, S.B., P.E. teach and coach; Sister Patricia Sullivan, S.A., Mrs. Richard Schaefer, 4; Sister Marie Louise 3, Mrs. Patrick Murphy, 2, Mrs. John McKenna, first grade and Mrs. Donald Compertta, Kindergarten.

Mrs. Murphy's second grade won the attendance prize, Mrs. James McCarty, door prize and Mrs. Michael Haas, the 50-50 award.

Open house was scheduled for October 19. The social hour was hosted by Mrs. M. J. Helber and Mrs. William Argus.

**DEMONSTRATION**  
Sister Patricia Brandner, principal Our Lady of the Gulf School, is inviting interested persons to attend a demonstration of new dimensions in education for Kindergarten at 9 a.m., Friday, September 29, in Our Lady of the Gulf School cafeteria.

**WORKSHOP**  
American Legion Auxiliary Unit 77 will conduct a Christmas Decoration Workshop for the Bazaar benefit September 28 at 1 p.m. offer each child a learning experience which is both joyful and constructive.

Billy Scarborough and children Amanda, Jay and Ginger of Jackson visited over the weekend with his parents Mr. and Mrs. W. A. Scarborough.

Mr. and Mrs. J.P. Cousins entertained Saturday night with home movies. Guests were Mr. and Mrs. H.P. Abel and children Nancy, Rene and Barry, Harahan, La.; Mrs. L. Lenz and daughter Judith and Bethany Jones, New Orleans; Mrs. James Lafitte, and Mr. and Mrs. S.J. Paulina, Waveland.

Mr. and Mrs. Lelyn W. Nybo held a family gathering Saturday at their Main Street home; this was the first time in three years that all their children were able to be together.

With them were Mr. and Mrs. Stephen Nybo of Hattiesburg, Mr. and Mrs. L.W. Nybo, Gulfport, Gilbert Nybo and Miss Cheryl Nybo, Bay St. Louis, and Miss Valeria Nybo, Summit, Miss. They were joined Sunday by Mrs. Nybo's nephew, Rusty Loflin of Vicksburg, Miss.

Mr. and Mrs. Lelyn W. Nybo and daughter Cheryl have returned from a months vacation. In Los Angeles they met their son, Gilbert, who had just returned from a two and a half years tour of overseas duty with the U.S. Air Force. While there they were guests of Mr. Nybo's twin brother L.B. Nybo and family.

They also visited Yellowstone Park, the Black Hills in South Dakota and spent some time with Mr. Nybo's sister Mrs. Wally Nelson and family in Madeline, Minn.

Mrs. Charles Strong left Sunday for an extended visit with her son-in-law and daughter Mr. and Mrs. Harvey Hagen in Clearwater, Fla. Prior to leaving Mrs. Strong had as guests for the weekend her son and daughter-in-law, Mr. and Mrs. Roy Strong of Lafayette, La.

Miss Becky Stanfield, a student at the University of Southern Mississippi, spent the weekend with Mr. and Mrs. Charles Scianna and family.

Mrs. W. Walle and son Louis of New Orleans are spending this week with her son-in-law and daughter, Mr. and Mrs. John D. Rutherford Jr. and family.

Mrs. Albert Hitt of Mobile, Ala. is visiting with Mr. and Mrs. Frank Trapani and family.

Mr. and Mrs. Frank Taconi spent the weekend in New Orleans with their son-in-law and daughter Mr. and Mrs. Kenneth Stieffel and family.

Mr. and Mrs. J.P. Cousins entertained Saturday night with home movies.

## USM Newspaper Given All-American Award

The Student Printz, student newspaper at the University of Southern Mississippi, has received the Associated Collegiate Press' All-American Award.

Named for part of the Winter Quarter and all of the Spring Quarter for excellence, the Printz has received the superior rating for the second consecutive year.

All-American is the highest mark of achievement given by the ACP.

Southern's twice-weekly campus newspaper is analyzed twice yearly and rated in comparison with publications produced in schools of approximately the same enrollment, printing method, and frequency of issue.

The current award indicated Marks of Distinction in the areas of coverage and content, writing and editing, editorial leadership and photography.

Commenting on the Printz,

the judges said, "You cover a wide spectrum of sources to give readers a clear picture of USM. Stories are clear, concise, complete. You cover relevant topics with maturity."

Additionally praising the "interesting, informative features," the judges noted the "professional writing, peppy sports copy" and gave special recognition to the paper's 24-page Careers Issue of last spring.

During the period of evaluation, the Printz staff included Mike Turner, the son of Mr. and Mrs. Leonard L. Turner of Biloxi, executive editor; Bruce Garrison, the son of Mr. and Mrs. M.L. Garrison, Lexington, Ky., and Bob Bishop, the son of Mr. and Mrs. Robert A. Bishop, Jackson, managing editors; Lisa Monti, the daughter of Mr. and Mrs. Lew Monti, Bay St. Louis, campus editor; Miles Morgan the son of Mr. and Mrs. Richard Morgan, Jackson, sports editor; and Dale Winters, the son of Mr. and Mrs. Donald E. Winters, Hattiesburg, business manager.

The October meeting will feature a social with an exchange of plants by members.

## Plant Entries Judged At Garden Meeting

Lakeshore Garden Club met Thursday afternoon at Trapani's, Highway 90, with Mrs. Henry Kothmann, president, presiding.

Mrs. Joseph J. Scaffidi and Mrs. Ben Mutter, guests, were introduced to the group.

Plant entries were judged and the winners announced were Mrs. A. M. Thomas, horticulture division; Mrs. Florence Foegele, dried; Mrs. John Everard, wild; Mrs. G.T.

Moreau, potted; Mrs. Kirkland Rheams, miniature. Mrs. Thomas and Mrs. J.C. Goodloe tied in the cultivated division.

Mesdames Monroe James, Everard and Goodloe, Garden of the Month, committee, announced the plaque for September went to Mrs. Frank Corcoran.

The October meeting will feature a social with an exchange of plants by members.

## Echoes

Mr. and Mrs. Lelyn W. Nybo held a family gathering Saturday at their Main Street home; this was the first time in three years that all their children were able to be together.

With them were Mr. and Mrs. Stephen Nybo of Hattiesburg, Mr. and Mrs. L.W. Nybo, Gulfport, Gilbert Nybo and Miss Cheryl Nybo, Bay St. Louis, and Miss Valeria Nybo, Summit, Miss. They were joined Sunday by Mrs. Nybo's nephew, Rusty Loflin of Vicksburg, Miss.

Mr. and Mrs. Lelyn W. Nybo and daughter Cheryl have returned from a months vacation.

In Los Angeles they met their son, Gilbert, who had just returned from a two and a half years tour of overseas duty with the U.S. Air Force. While there they were guests of Mr. Nybo's twin brother L.B. Nybo and family.

They also visited Yellowstone Park, the Black Hills in South Dakota and spent some time with Mr. Nybo's sister Mrs. Wally Nelson and family in Madeline, Minn.

Mrs. Charles Strong left Sunday for an extended visit with her son-in-law and daughter Mr. and Mrs. Harvey Hagen in Clearwater, Fla. Prior to leaving Mrs. Strong had as guests for the weekend her son and daughter-in-law, Mr. and Mrs. Roy Strong of Lafayette, La.

Miss Becky Stanfield, a student at the University of Southern Mississippi, spent the weekend with Mr. and Mrs. Charles Scianna and family.

Mrs. W. Walle and son Louis of New Orleans are spending this week with her son-in-law and daughter, Mr. and Mrs. John D. Rutherford Jr. and family.

Mrs. Albert Hitt of Mobile, Ala. is visiting with Mr. and Mrs. Frank Trapani and family.

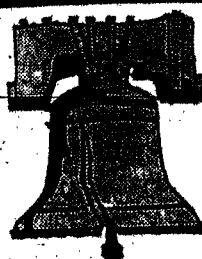

Mr. and Mrs. Frank Taconi spent the weekend in New Orleans with their son-in-law and daughter Mr. and Mrs. Kenneth Stieffel and family.

Mr. and Mrs. J.P. Cousins entertained Saturday night with home movies. Guests were Mr. and Mrs. H.P. Abel and children Nancy, Rene and Barry, Harahan, La.; Mrs. L. Lenz and daughter Judith and Bethany Jones, New Orleans; Mrs. James Lafitte, and Mr. and Mrs. S.J. Paulina, Waveland.

Mr. and Mrs. J.P. Cousins entertained Saturday night with home movies.

**FREEDOM**  
a never finished business  
Freedom is probably the most treasured word in all the world. Americans have enjoyed this great privilege for almost 200 years. But, there was a time when freedom in America was for the 'respectable' people, those who owned property to qualify for the right to vote. Throughout our history, too often freedom has been abridged or denied to certain classes or minority groups. Yet, eventually these groups have attained full acceptance into citizenship - not by riot or revolution, but by steady acceptance within the framework of our constitution. This is the pride and glory of the United States, that we have been able to grow in freedom toward an ever-broader freedom. Let Freedom in America never be finished business... and let America never cease working on it.

## Four Stanislaus Students Named Merit Semifinalists

Brother Lee Barker, principal of St. Stanislaus High School, has announced that four students of St. Stanislaus have been named as semifinalists in the 1973 National Merit Scholarship Program. These students are Evans "Mac" Hadden, Lee Hayden, Jr., James Piland and Rick Kergosien. The semifinalists in this program received the highest qualifying scores in their states on the Preliminary Scholastic Aptitude Test-National Merit Scholarship Qualifying Test, and they

constitute less than one per cent of the graduating secondary seniors in the United States. They now become eligible for one of the 1,000 National Merit Scholarships which are allocated on a state basis.

Hadden, the son of Mr. Richard Hadden of 103 Vista Dr. in Pass Christian, is in his fourth year at St. Stanislaus. Hayden, in his sixth year at St. Stanislaus, is the son of Mr. and Mrs. Forrest Lee Hayden of 710 South Beach Blvd. in Bay St. Louis. Piland is the son of Mr. and Mrs. Robert Piland of Rt. 1, Box 346 in Bay St. Louis and is in his third year at St. Stanislaus. Kergosien is in his sixth year at St. Stanislaus and is the son of Mr. and Mrs. Phil Kergosien of 109 Carroll Ave. in Bay St. Louis.

## You and your pet

By TED KAVANAUGH, DIRECTOR,  
ALPO PET NEWS BUREAU

### Housebreaking Your Puppy

Housebreaking involves either a one or two-step method, depending on your living accommodations.

Home owners with a yard use the one-step method, training the puppy directly to a prepared place outdoors. You prepare that place by mapping up the pup's first indoor mistake, fastening the rag in his outdoor place and taking him there. Puppy sniffs it and quickly gets the message.

You must take him there often from morning till night to set the habit pattern. This may take a week or so. Remember, a puppy must eliminate frequently during these early training days before his control system builds up.

Indoors, confine the puppy in a well ventilated box or crate for sleeping, naps and playing. He will be instinctively reluctant to soil this "crib." But if you are not vigilant enough and a mistake is made, chastise the pup mildly and take him immediately to his outdoor place.

Close confinement for this training period won't hurt the pup, as experienced owners and trainers know.

**Praise Your Puppy**  
Be sure to praise the puppy lavishly every time he uses the right place. He soon learns which one results in praise or rebuke.

For apartment dwellers, the intermediate step of paper training has a drawback: the puppy must unlearn it when switched to street training. Here's how it works.

The puppy's paper-covered confinement area, preferably

Correct the pup immediately for mistakes on the bare floor, using the praise-and-rebuke tactics previously mentioned to teach right from wrong. And a drop or two of ammonia solution rubbed in the wet spot will remove both the urine smell and the inclination to reuse that spot.

Within about two weeks, begin street walks with your puppy until he learns that is the place to go, then remove the remaining papers. At this stage, be alert for signs of needed relief, such as searching madly for the missing papers, and take him out promptly. Be patient and loving, and soon that great graduation day will come.

P.S. Puppies need a veterinarian's checkup every 6-8 weeks.

FOUR NATIONAL MERIT semifinalists from St. Stanislaus with Brother Lee Barker, principal, are (from left to right): James Piland, Mac Hadden, Brother Lee, Lee Hayden and Rick Kergosien.

## Dates Given For ACT Tests

Mrs. Donald Coffey, Guidance Counselor at Coast Episcopal High School, announced testing dates set for nationally administered ACT tests, and their application dates. The five dates will be important Saturdays for every student planning to attend college.

Dates for the 1972-73 academic year with Coffey pointed out that college admissions officers require corresponding registration periods in parenthesis are: ACT scores for state Oct. 21, 1972 (Aug. 21-Oct. 2); universities and junior Dec. 9, 1972 (Oct. 9-Nov. 13); colleges. Last year approximately one million students in the U.S. and overseas took the five-

part assessment, which is required or recommended for applicants at more than 2,000 colleges, universities, two-year colleges scholarship agencies, and athletic conferences.

The ACT Assessment consists of four academic tests and a questionnaire section that collects information about an individual's academic and extracurricular achievements in high school, immediate plans for the future, and career aspirations. The four tests—covering English usage, math, social studies, and natural sciences—are designed to assess general educational development.

Mrs. Coffey recommended that students write the ACT examination-questionnaire during the Junior year or early in their senior year, in order to make use of the resulting ACT data in planning for college.

## Religion Classes Begin Next Week

Religion classes for the Catholic students attending Gulfview School will begin next week.

All of the classes will be held after school in the hall next to St. Ann's Church. Grades 6, 7, and 8 will attend classes on Mondays and Grades 1 through 5 on Tuesdays.

The students will ride the busses which pass St. Ann's

Church on their class days; parents are asked to send permissions to the principal, Mr. L. C. Ladner, in order for their children to ride these busses. The parents will provide transportation after the classes.

The high school religion classes will be held on Tuesday evenings at 7:30 in the church hall. They will begin October 3.

**Births**

Mr. and Mrs. Harold Hitt announce the arrival of their second child and second daughter, September 26 at Gulfport Memorial Hospital. She weighed seven pounds, 11 ounces.

Mrs. Hitt, the former Janet Ann Trapani, is the daughter of Mr. and Mrs. Frank Trapani of Bay St. Louis. Mrs. Albert Hitt of Mobile, Ala., and the late Mr. Hitt are paternal grandparents.

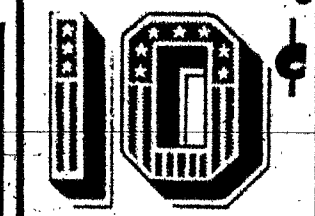

Mr. and Mrs. Roger L. Bingham announce the birth of their first child, Serena Renee, September 20 at Waltham County General Hospital, Tylertown, Miss. She weighed seven pounds, 11 ounces.

Mrs. Bingham is the former Wendy Beasley, daughter of Mrs. Annie Beasley of Morgan Town, Miss. Mr. and Mrs. A. L. Bingham of Clermont Harbor are the paternal grandparents.

If you're one of almost 4 million high school and college graduates who will start building social security protection on your first job, get a social security card before you go to work. Show it to your employer and make sure he copies the number correctly. To find out how social security protects young workers now and throughout their careers—call, write, or visit any social security office.

#### Television Excellence

#### Mutual of Omaha's Wild Kingdom Returns

Program star Marlin Perkins travels each week to remote centers of the world for first-hand observations of wildlife.

Ever yearn to explore the ocean depths in search of rare marine specimens? . . . or travel to remote African marathes to study the life patterns of the "big cats" sharing the same watering hole?

A zest for adventure blends with education and entertainment as "Mutual of Omaha's Wild Kingdom" returns for its eleventh season on national television September 17. Premiere programs on over 215 stations will transport viewers to the far reaches of the globe.

World renowned zoologist Marlin Perkins will continue to host the popular family show emphasizing methods of preserving endangered wildlife from unnatural extinction. Each week throughout the year, he will be joined by other explorer-naturalists and conservationists on location in the wild kingdom.

Entering its second syndicated season, the series has already gained the number one spot in

##### ORIENTAL BANANAS 'N' PORK

6 pork steaks or chops  
Salt and pepper  
1 chicken bouillon cube  
1 1/2 cups boiling water  
1/4 cup cornstarch

2 tablespoons soy sauce  
1 (15 oz.) can peach slices  
2 Dole bananas, peeled and cut into chunks

Brown chops in large skillet; sprinkle with salt and pepper. Dissolve bouillon cube in boiling water. Pour over chops. Cover and simmer for 20 to 30 minutes. Blend cornstarch with soy sauce and syrup from peaches. Add to chops; stir until thickened. Stir in peaches and bananas; bring to a boil. Serve over hot cooked rice. Makes 6 servings.

#### TRUSTEE'S NOTICE OF SALE

WHEREAS, on November 4, 1970 Floyd Johnston and wife, Bonnie Johnston, executed a deed of trust to O.B. Taylor, Jr., Trustee for the benefit of Kimbrough Investment Company, which deed of trust is recorded in Deed of Trust Book 148 at page 438 in the office of the Chancery Clerk of Hancock County, State of Mississippi; and

WHEREAS, default having been made in the terms and conditions of said deed of trust and the entire debt secured thereby, having been declared to be due and payable in accordance with the terms of said deed of trust, and the legal holder of said indebtedness, Kimbrough Investment Company, having requested the undersigned trustee to execute the trust and sell said land and property in accordance with the terms of said deed of trust for the purpose of raising the sums due thereunder, together with attorney's fees, trustee's fees and expense of sale.

NOW, THEREFORE, I, O. B. Taylor, Jr., Trustee in said deed of trust, will on the 13th day of October, 1972 offer for sale at public outcry, and sell within legal hours, (being between the hours of 11:00 A.M. and 4:00 P.M.), at the front door of the County Court House of the County of Hancock, Mississippi, to the highest and best bidder for cash, the following described property lying and being situated in the County of Hancock, State of Mississippi, to-wit:

Lot 16, Block 2, Spanish Acres Estates Subdivision to the City of Bay St. Louis, County of Hancock, State of Mississippi, as per map or plat thereof on file and of record in Plat Book 3, Page 31 of the Plat Records of Hancock County, Mississippi.

I will convey only such title as is vested in me as Trustee.

WITNESSETH this 24th day of August, 1972.

### ADVERTISEMENTS FOR BIDS

Sealed proposals for "Remedial Waterproofing for Bay Junior High School" Project No. 7207A will be received by the Owner until 2:30 P.M., Tuesday, October 24th, 1972 at the office of the School Superintendent, Bay High School, Bay St. Louis, Mississippi, at which time and place all proposals will be publicly opened and read aloud.

Plans and specifications are on file in the offices of the Superintendent of City Schools and of Fred Wagner, Architect, 242 Main Street, Bay St. Louis, Mississippi. Copies of documents may be obtained from the Architect upon deposit of \$5.00 for each set. Upon return of complete, unutilized sets within 20 days of the date of bid opening refunds will be made as follows:

100 per cent refund on first set to bidding contractors.  
50 per cent refund on all other sets.

Proposals must be submitted on business letterhead, in triplicate, as set forth in Form of Proposal. Proposals must be accompanied by a bid security in the amount of 5 per cent of the bid in the form of a bid bond countersigned by an agent in Hancock County or in the form of a certified or cashier's check made payable to the Owner. The successful bidder will be required to furnish a performance bond in the amount of 100 per cent of the contract amount at the time of the signing of the contract.

All bidders must hold a Certificate of Responsibility and State Contractor's License as and if required by law and both numbers shall appear on the proposal and on the outside of the sealed envelope.

No proposal may be withdrawn within thirty days after bid opening. The contract will be awarded to the lowest qualified bidder if sufficient funds are available. The Owner reserves the right to reject any and all bids and to waive any informalities.

#### NOTICE OF PROPOSED FEDERAL AID SECONDARY PROJECT NO. S-0104(7) B FENTON ROAD HANCOCK COUNTY

The Hancock County Board of Supervisors proposes to improve a section of the Fenton Road in Hancock County, which is on Federal Aid Secondary Route No. 104. This proposed construction project consists of 2.9 miles of Grading, Construction of Drainage Structures, Base Course and Bituminous Paving, and will be administered as a Federal Secondary Project under the State Aid Road Program.

The proposed project begins at Bayou Latere in Section 37, T7S, R14W and extends generally easterly along FAS Route 104 to the Hancock-Harrison County Line at the E. Line of Section 24, T7S, R14W.

All interested persons are hereby advised that an approved "Negative Declaration Relative to Environmental Impact" is on file and available at the offices of the State Aid Engineer in the United Gas Building, 151 East Griffith Street, P.O. Box 1850, Jackson, Mississippi.

A "Location and Design Report" has been prepared by the County Engineer, Mr. Lawrence L. Seal, of Picayune, Mississippi and a copy of same submitted to the State Aid Engineer for his review. At a later date, a Notice will be published in this newspaper setting out the action taken as a result of his review.

All interested persons desiring a public hearing on the location and design of the project must write to both the Hancock County Board of Supervisors, c/o the Chancery Clerk at his office in the County Courthouse in Bay St. Louis, Mississippi, and to the State Aid Engineer at his office previously listed on or before October 12, 1972 setting forth the reasons for desiring such a hearing.

In the event a request for a public hearing is received, a further Notice will be published specifying the date, time, and place of the hearing.

### Dissenting Opinion

News stories about split decisions by the United States Supreme Court must surely bewilder many a reader. What the majority confidently asserts in Paragraph One, dissenters just as confidently deny in Paragraph Two.

What shall the ordinary citizen make of all this? If even the experts cannot agree on what the law is, how can plain folk be expected to know?

Of course, the law is what the majority opinion says it is. A dissenting opinion has no legal force.

In fact, in many countries, dissenting opinions are simply not allowed. Once a majority decision is reached, dissenters are expected to keep their views to themselves.

But on our Supreme Court, public dissent has a long and respectable history. It has been a regular feature of the Court ever since 1806, when a holdout justice voiced his disagreement with Chief Justice John Marshall.

One great virtue of this right of dissent ("the only thing that makes life tolerable," said Justice William O. Douglas) is that it may help shape the law of the future. Major changes in the law, including even amendments to the Constitution, have had roots in earlier dissenting opinions from the Court.

Still, dissents, if overdone, can needlessly weaken both public understanding and public acceptance of a Court ruling. At least, say critics, a judge should not dissent merely because of minor disagreement or personal pride.

Statistics do show that relatively few of the dissenting opinions — even those of Oliver Wendell Holmes, the "Great Dissenter" — have ever become the law of the land.

Is it surprising that dissents occur so often? Not when one considers the kind of questions the Court must answer. Almost always, they are questions on which even the wisest and fairest of men may differ. The easy ones just never reach the Court at all.

### KINDERGARTEN

Kiln Kindergarten will open its doors Monday morning, October 2, in Shifalo Baptist Church educational building located across the highway from Kiln Post Office.

Thirteen children have registered for this session to be taught by Mrs. Vernon Haas, who formerly taught in Cyril, Oklahoma.

There is still room for seven more children and enrollment can be made by going to the Kindergarten which will be in session from 8:30 to 11:30 a.m. Mondays through Fridays.
